Dear John

Thank you for sending me the Review of the Labour Force Survey.

This is an excellent review, and is an excellent model, in a very demanding area. I am very content with the report, in all aspects. I am very happy with almost all of the conclusions, and have no problems with any.

It is really well written perhaps the best I have read so far.

Many thanks to the team responsible for this. It really is first class.

Yours sincerely
