

Statistical bulletin

Index of Production, UK: September 2021

Movements in the volume of production for the UK production industries: manufacturing, mining and quarrying, energy supply, and water and waste management. Figures are seasonally adjusted.

Release date: 11 November 2021 Next release: 10 December 2021

Table of contents

- 1. Main points
- 2. Index of Production data
- 3. Measuring the data
- 4. Related links

1. Main points

- Monthly production fell by 0.4% between August 2021 and September 2021, meaning output was 1.4% below its February 2020 level, the last month of "normal" trading conditions prior to the coronavirus (COVID-19) pandemic.
- The monthly fall in output was the result of falls in all four production sectors, with the largest being a decrease of 1.6% in the electricity and gas sector.
- Of the four production sectors, monthly manufacturing output remains 2.5% below its February 2020 level and mining and quarrying is 3.7% below; in contrast, electricity and gas was 1.3% above its February 2020 level and water supply and sewerage was 5.5% above.
- Within manufacturing, output fell by 0.1% between August 2021 and September 2021, led by a decline of 5.1% in the manufacture of transport equipment, with output in this subsector 28.6% below its February 2020 level; this was partially offset by a rise of 3.8% in the manufacture of basic pharmaceutical products and pharmaceutical preparations and a rise of 2.4% in the manufacture of basic metals and metal products.
- Production output for Quarter 3 (July to Sept) 2021 increased by 0.8% compared with Quarter 2 (Apr to June) 2021, led by a 26.3% rise from mining and quarrying.
- For further and detailed analysis of the effect on our monthly Index of Production estimate, please see <u>GDP</u> monthly estimate, UK: <u>September 2021</u>, published today (11 November 2021).

2. Index of Production data

Index of Production time series

Dataset DIOP | Released 11 November 2021

Movements in the volume of production for the UK production industries: manufacturing, mining and quarrying, energy supply, and water and waste management. Figures are seasonally adjusted.

Output of the production industries

Dataset | Released 11 November 2021

Index values and growth rates for production, manufacturing and the main industrial groupings in the UK.

Index of Production and industry sectors to four decimal places

Dataset | Released 11 November 2021

Monthly index values for production and the main Index of Production (IoP) sectors in the UK to four decimal places.

Monthly Business Survey turnover in production industries

Dataset | Released 11 November 2021

Monthly Business Survey (MBS) production industries' total turnover, domestic sales and exports in the UK. Figures are in current price and non-seasonally adjusted.

Export proportions for manufacturing industries

Dataset | Released 11 November 2021

Monthly, quarterly and annual export data for the manufacturing industries, collected by the MBS at industry level in the UK.

All data related to the IoP are available on the Related data page.

3. Measuring the data

The Index of Production (IoP) uses data from a variety of sources and is calculated by taking turnover and removing the impact of price changes, or by using direct volume estimates.

The majority of these data are collected as "turnover values" through the Monthly Business Survey (MBS). In addition, direct volume series are collected by the Department for Business, Energy and Industrial Strategy (BEIS) and the International Steel Statistics Bureau (ISSB) for steel industries.

From January 2018, Value Added Tax (VAT) data have also been included across 64 production industries for small and medium-sized businesses. For more information, see VAT turnover data in national accounts: background and methodology.

A comprehensive list of the IoP source data can be found in the <u>Gross domestic product (GDP(O)) source catalogue (XLS, 715KB)</u>.

More quality and methodology information on strengths, limitations, appropriate uses, and how the data were created is available in the <u>UK IoP QMI</u>.

Coronavirus (COVID-19)

The Office for National Statistics' (ONS') Monthly Business Survey (MBS) is fully online, meaning that business owners can log on from any location and submit their data at an appropriate time. Most other data in the IoP come from the BEIS and therefore will be less affected than survey data.

Our latest data and analysis on the impact of coronavirus on the UK economy and population is now available on the ONS <u>coronavirus homepage</u>. This is the hub for all special coronavirus-related publications, including the fortnightly Business Insights and Conditions Survey (BICS).

The ONS has released a public statement on <u>COVID-19 and the production of statistics</u>. Specific queries can be directed to the <u>Media Relations Office</u>.

Consultation on the Code of Practice for Statistics - proposed change to 9: 30am release practice

On behalf of the UK Statistics Authority, the Office for Statistics Regulation (OSR) is conducting a <u>consultation on the Code of Practice for Statistics</u>, <u>proposing changes to the 9.30am release practice</u>. Please send comments by 21 December 2021to <u>regulation@statistics.gov.uk</u>

International comparisons of GDP during the coronavirus (COVID-19) pandemic

Article | Released 1 February 2021

The coronavirus (COVID-19) pandemic has led to record declines in gross domestic product (GDP) in advanced economies in 2020. International comparisons show that the UK has experienced the largest contraction in volume GDP among the G7 countries. However, international comparisons have also been complicated by how National Statistical Institutes (NSIs) record non-market output.

Comparison of motor vehicle manufacturing output statistics, UK: 1997 to 2019

Article | Released 10 January 2020

A comparison of the methodologies used to estimate motor vehicle manufacturing outputs by the Office for National Statistics (ONS) and the Society of Motor Manufacturers and Traders (SMMT).

Comparing ONS's economic data with IHS Markit and CIPS Purchasing Managers' Index surveys

Article | Released 21 October 2019

The level of correlation between ONS data and IHS Markit and Chartered Institute of Procurement and Supply Purchasing Managers' indices.

GDP monthly estimate, UK: September 2021

Bulletin | Released 11 November 2021

Gross domestic product (GDP) measures the value of goods and services produced in the UK. It estimates the size of and growth in the economy and includes the Index of Production (IoP), Index of Services (IoS) and construction output in Great Britain.

Producer price inflation, UK: September 2021

Bulletin | Released 20 October 2021

The corresponding price indices used to deflate the IoP are published in the monthly publication of UK. producer price inflation.

UK manufacturers' sales by product: 2020 results

Bulletin | Released 11 August 2021

Product sales by manufacturers are published on an annual basis in ProdCom statistical bulletins; estimates are in current prices, unlike the chained volume measures published in the IoP release.

Energy Trends: August 2021

Bulletin | Released 26 August 2021
