Release date:  
14 September 2021

Next release:  
12 October 2021

## Notice

### 30 September 2021

Due to a calculation error in the method used to reweight the Labour Force Survey, which uses a three-month rolling average of RTI data, there is a lag of one month. Our analysis shows the impact on the population levels and headline labour market levels estimates is, though, very small with the published headline labour market rates unchanged. The impact on LFS estimates for employment, unemployment and economic inactivity level at UK level is mostly below 0.1% and the impact on rates is less than 0.02 percentage points.

## 2 . Main points

The most recent data show the labour market continuing to recover.

The number of payroll employees showed another monthly increase, up 241,000 to 29.1 million in August 2021, returning to pre-coronavirus (COVID-19) pandemic (February 2020) levels. All regions except London, Scotland and South East are now above pre-pandemic levels.

Following a period of employment growth and low unemployment, since the start of the pandemic the employment rate has generally decreased, and the unemployment rate has increased. However, since the end of 2020, both have shown signs of recovery. In the latest period (May to July 2021), there was a quarterly increase in the employment rate of 0.5 percentage points, to 75.2%, and a decrease in the unemployment rate of 0.3 percentage points, to 4.6%. The economic inactivity rate is down 0.3 percentage points on the previous quarter, to 21.1%.

Young people (those aged 16 to 24 years) have been particularly affected by the pandemic, with the employment rate decreasing and the unemployment and economic inactivity rates increasing by more than seen for those aged 25 years and over. Over the last quarter, however, there was a strong increase in the employment rate and decrease in the unemployment and inactivity rates for young people.

The number of job vacancies in June to August 2021 was 1,034,000, which is the first time vacancies have risen over 1 million since records began, and is now 249,000 above its pre-pandemic January to March 2020 level. Vacancies grew on the quarter in June to August 2021 by 269,300 (35.2%), with all industry sectors increasing their number of vacancies and the majority reaching record levels; the largest increase was seen in accommodation and food service activities, which rose by 57,600 (75.4%).

Growth in average total pay (including bonuses) was 8.3% and regular pay (excluding bonuses) was 6.8% among employees for the three months May to July 2021. However, annual growth in average employee pay is being affected by [temporary factors that have inflated the increase in the headline growth rate](#): base effects where the latest months are now compared with low base periods when earnings were first affected by the coronavirus pandemic, and compositional effects where there has been a fall in the number and proportion of lower-paid employee jobs, therefore increasing average earnings.

## 3 . Latest indicators at a glance

## 4 . Labour market data

### [Summary of labour market statistics](#)

Dataset A01 | Released 14 September 2021

Estimates of employment, unemployment and other employment-related statistics for the UK.

### [Real Time Information statistics](#)

Dataset Real Time Information statistics | Released 14 September 2021

Earnings and employment statistics from Pay As You Earn (PAYE) Real Time Information (RTI) (Experimental Statistics) seasonally adjusted.

### [Labour Force Survey single month estimates](#)

Dataset X01 | Released 14 September 2021

Labour Force Survey (LFS) experimental single-month estimates of employment, unemployment and economic inactivity.

### [Labour Force Survey weekly estimates](#)

Dataset X07 | Released 14 September 2021

Labour Force Survey (LFS) experimental weekly estimates of employment, unemployment, economic inactivity and hours in the UK.

View all related data on the [related data page](#).

Alternatively, [NOMIS](#) provides free access to the most detailed and up-to-date UK labour market statistics

## 5 . Glossary

### Average weekly earnings

[Average weekly earnings](#) measures money paid by employers to employees in Great Britain before tax and other deductions from pay. The estimates are not just a measure of pay rises because they also reflect, for example, changes in the overall structure of the workforce. More high-paid jobs in the economy would have an upward effect on the earnings growth rate.

### Economic inactivity

People not in the labour force (also known as [economically inactive](#)) are not in employment but do not meet the internationally accepted definition of unemployment because they have not been seeking work within the last four weeks and/or they are unable to start work in the next two weeks. The economic inactivity rate is the proportion of people aged between 16 and 64 years who are not in the labour force.

### Employment

[Employment](#) measures the number of people in paid work or who had a job that they were temporarily away from (for example, because they were on holiday or off sick). This differs from the number of jobs because some people have more than one job. The employment rate is the proportion of people aged between 16 and 64 years who are in employment. A more detailed explanation is available in [A guide to labour market statistics](#).

### Unemployment

[Unemployment](#) measures people without a job who have been actively seeking work within the last four weeks and are available to start work within the next two weeks. The unemployment rate is not the proportion of the total population who are unemployed. It is the proportion of the economically active population (those in work plus those seeking and available to work) who are unemployed.

## Vacancies

[Vacancies](#) are defined as positions for which employers are actively seeking recruits from outside their business or organisation. The estimates are based on the Vacancy Survey; this is a survey of businesses designed to provide estimates of the stock of vacancies across the economy, excluding agriculture, forestry and fishing (a small sector for which the collection of estimates would not be practical).

## Pay As You Earn (PAYE) Real Time Information (RTI)

These data come from HM Revenue and Customs' (HMRC's) Pay As You Earn (PAYE) Real Time Information (RTI) system. They cover the whole population rather than a sample of people or companies, and they will allow for more detailed estimates of the population. The release is classed as [Experimental Statistics](#) as the methodologies used to produce the statistics are still in their development phase. As a result, the series are subject to revisions.

A [more detailed glossary](#) is available.

## 6 . Measuring the data

Our bulletins will be shorter and more focused on the main messages and most important trends in response to user feedback. Read [more on this and how to send us feedback on how our publications are evolving](#).

### Coronavirus

For more information on how labour market data sources are affected by the coronavirus (COVID-19) pandemic, see the article published on 6 May 2020, which details [some of the challenges that we have faced in producing estimates](#) at this time.

An article published 11 December 2020 compares our labour market data sources and discusses some of the [main differences](#).

Labour Force Survey (LFS) responses have been [reweighted to new populations](#) derived using growth rates from HM Revenue and Customs (HMRC) Real Time Information (RTI), to allow for different trends during the pandemic. The reweighting will give improved estimates of both rates and levels.

Our latest data and analysis on the impact of coronavirus on the UK economy and population are available on our dedicated [coronavirus web page](#). This is the hub for all special coronavirus-related publications, drawing on all available data. In response to the developing coronavirus pandemic, we are working to ensure that we continue to publish economic statistics. For more information, please see [COVID-19 and the production of statistics](#).

More information on measuring the data is available in our [previous release](#).

## 7 . Strengths and limitations

The estimates presented in this bulletin contain [uncertainty](#).

Further information is available in [A guide to labour market statistics](#).

Information on revisions is available in the [Labour market statistics revisions policy](#).

Information on the strengths and limitations of this bulletin is available in our [previous release](#).

## Summary of labour market statistics published on 14 September 2021

Series	Reference period	Latest estimate	Last time higher	Last time lower	Comparable data begins in
Employment level (aged 16 and over)	May-Jul 2021	32.357 million	Jun-Aug 2020 (32.465 million)	Apr-Jun 2021 (32.276 million)	Jan-Mar 1971
Employment rate (aged 16 to 64)	May-Jul 2021	75.2%	Jun-Aug 2020 (75.4%)	Apr-Jun 2021 (75.1%)	Jan-Mar 1971
Unemployment level (aged 16 and over)	May-Jul 2021	1.55 million	Apr-Jun 2021 (1.6 million)	Jun-Aug 2020 (1.543 million)	Jan-Mar 1971
Unemployment rate (aged 16 and over)	May-Jul 2021	4.6%	Apr-Jun 2021 (4.7%)	Jun-Aug 2020 (4.5%)	Jan-Mar 1971
Inactivity level (aged 16 to 64)	May-Jul 2021	8.711 million	Apr-Jun 2021 (8.727 million)	Sep-Nov 2020 (8.648 million)	Jan-Mar 1971
Inactivity rate (aged 16 to 64)	May-Jul 2021	21.1%	Mar-May 2021 (21.3%)	Sep-Nov 2020 (20.9%)	Jan-Mar 1971
Average Earnings (total pay - nominal)	May-Jul 2021	8.3%	Apr-Jun 2021 (8.8%)	Mar-May 2021 (7.4%)	Jan-Mar 2001
Average Earnings (regular pay - nominal)	May-Jul 2021	6.8%	Apr-Jun 2021 (7.3%)	Mar-May 2021 (6.6%)	Jan-Mar 2001
Average Earnings (total pay - real)	May-Jul 2021	6.0%	Apr-Jun 2021 (6.6%)	Mar-May 2021 (5.7%)	Jan-Mar 2001
Average Earnings (regular pay - real)	May-Jul 2021	4.5%	Apr-Jun 2021 (5.2%)	Feb-Apr 2021 (4.4%)	Jan-Mar 2001
Vacancies level	Jun-Aug 2021	1034,000	Never	May-Jul 2021 (959,000)	Apr-Jun 2001

# Index of Tables

The table below provides an index of the tables appearing in this Statistical Bulletin and it shows how these table numbers match up with the Excel spreadsheet datasets which are available on the website at:

<https://www.ons.gov.uk/employmentandlabourmarket/peopleinwork/employmentandemployeetypes/bulletins/uklabourmarket/September2021/relateddata>

Table 17 (International comparisons of employment and unemployment) is temporarily suspended, the data presented is the latest data available on the ONS website however all the data can be found on the Eurostat, OECD, Statistics Canada and US Bureau of Statistics

Table 18 (Labour Disputes) is also temporarily suspended as data collection has ceased for the foreseeable future. The data presented is the latest available.

Source: Labour Force Survey

Labour market statistics enquiries: [labour.market@ons.gov.uk](mailto:labour.market@ons.gov.uk)

1. The Labour Force Survey (LFS) is a survey of households in the UK.

2. The headline employment rate is the number of people aged 16 to 64 in employment divided by the population aged 16 to 64.

3. The headline unemployment rate is the number of unemployed people (aged 16+) divided by the economically active population (aged 16+). The economically active population is defined as those in employment plus those who are unemployed.

4. The headline inactivity rate is the number of people aged 16 to 64 divided by the population aged 16-64.

### Note on headline employment, unemployment and inactivity rates

The headline employment and inactivity rates are based on the population aged 16 to 64 but the headline unemployment rate is based on the economically active population aged 16 and over. The employment and inactivity rates for those aged 16 and over are affected by the inclusion of the retired population in the denominators and are therefore less meaningful than the rates for those aged from 16 to 64. However, for the unemployment rate for those aged 16 and over, no such effect occurs as the denominator for the unemployment rate is the economically active population which only includes people in work or actively seeking and able to work.

### Note on headline employment, unemployment and inactivity levels

The headline employment and unemployment levels are for those aged 16 and over; they measure all people in work or actively seeking and able to work. However, the headline inactivity level is for those aged 16 to 64. The inactivity rate for those aged 16 and over is less meaningful as it includes elderly people who have retired from the labour force.

# SUMMARY

Source: returns from public sector organisations

**Explanatory Note:** The public and private sector employment series have been affected by a number of major reclassifications where bodies employing large numbers of people have moved between the public and private sectors. These major reclassifications are as follows:

Further Education corporations and Sixth Form College corporations in England are included in the private sector from June 2012 but in the public sector for earlier time periods.  
Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.  
Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and later time periods.  
Royal Bank of Scotland plc is included in the public sector from December 2008 but in the private sector for earlier time periods.  
Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).  
Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.  
Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.  
Welsh Further Education colleges are included in the private sector from March 2015 but in the public sector for earlier time periods.  
Housing associations in England are included in the public sector between September 2008 and September 2017; they are in the private sector for earlier and later time periods.  
Housing associations in Scotland are included in the public sector from September 2001 until June 2018; they are included in the private sector for earlier and later time periods.  
Housing associations in Wales are included in the private sector from June 2018; they are included in the public sector for earlier time periods.  
Housing associations in Northern Ireland are included in the public sector from March 1999 to June 2020.  
Train operating companies in England, Scotland and Wales operating under emergency measure agreements are included in the public sector from June 2020.

The series shown at Table 4 (in columns 6 to 9) for public and private sector employment excluding the effects of major reclassifications show all of the above mentioned bodies included in the private sector for all time periods and excluded from the public sector for all time periods. When using figures from this table, the latest estimate of the number of people employed in the public and private sectors should be taken from columns 1 and 3 respectively. However the quarterly and annual changes in employment shown in these columns are affected by reclassifications. Figures from columns 6 and 8 should be used for assessments of the recent underlying changes in public and private sector employment. The changes in employment shown in these columns are measured on a consistent basis to remove the effect of major reclassifications.

1. Estimated as the difference between LFS total employment and the data from public sector organisations.
2. LFS employment data for March refer to February-April, June refers to May-July, September refers to August-October and December refers to November-January.
3. This series excludes locally engaged staff stationed outside the United Kingdom.
4. This series excludes the Northern Ireland Civil Service.
5. This series may not exactly equal the sum of the components because each component is independently seasonally adjusted.

More detailed estimates are available in the Public Sector Employment Statistical Bulletin at:  
<https://www.ons.gov.uk/employmentandlabourmarket/peopleinwork/publicsectorpersonnel/bulletins/publicsectoremployment/latest>

Workforce jobs enquiries 01633 456776

Sources: Employer surveys, Labour Force Survey and administrative sources

1. Workforce Jobs estimates include data from the Labour Force Survey (LFS). From the 15th July 2021 an improved LFS weighting methodology, better accounting for population changes through the COVID-19 pandemic was implemented, affecting periods from January to March 2020 onwards. Our September 2021 publication of Workforce Jobs statistics is the first to take on these revised LFS estimates. For more information on the reweighting of LFS estimates, please see this [article](#) on the ONS website.

2. Workforce Jobs figures are a measure of jobs rather than people. For this reason estimates of self-employment jobs and government supported trainee jobs differ from estimates of people in self-employment and in government supported training and employment programmes shown at Table 3. The estimates for government supported trainees shown in this table exclude trainees with contracts of employment as such people are included in the estimates of employee jobs.

3. The employee jobs data relate to the March 2020 period before reported cases of the coronavirus (COVID-19) in the UK. Self-employment jobs relate to the period February-April 2020 which includes self-employment jobs before and after COVID-19 measures were implemented .

4. This series is not exclusively a public sector series as it includes some private sector jobs. See table 4 for estimates of public and private sector employment.

1. The total series includes people who do not state their country of birth or nationality. The total levels series MGTM does not therefore equal the sum of the "UK" and "Non-UK" series.

2. This series consists of all 27 EU member states excluding the UK. This series equals the sum of EU14, EU8, EU2 and Other EU.

3. Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain and Sweden.

4. Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovak Republic and Slovenia.

5. Romania and Bulgaria.

6. Cyprus, Malta and Croatia

7. Total Non-EU equals the sum of Other Europe, Total Africa, Total Asia and Total America and Oceania

The estimates shown in this table relate to the number of people in employment and should not be used as a proxy for flows of foreign migrants into the UK.

Source: Labour Force Survey

Labour market statistics enquiries: [labour.market@ons.gov.uk](mailto:labour.market@ons.gov.uk)

1. The total series includes people who do not state their country of birth or nationality. The total levels series therefore do not equal the sum of the "UK" and "Non-UK" series.
2. This series consists of all 27 EU member states excluding the UK.
3. This series consists of those people whose main reason for being economically inactive was because they were students. It does not include all students as some students will be included in the employment and unemployment estimates.

Data Source: Labour Force Survey.

Labour market statistics enquiries: [labour.market@ons.gov.uk](mailto:labour.market@ons.gov.uk)

1. Discouraged workers are those who are not looking for work because they believe no jobs are available.  
2. Other reasons include people who (i) are waiting the results of a job application, (ii) have not yet started looking for work, (iii) do not need or want employment, (iv) have given an uncategorised reason for being economically inactive, or (v) have not given a reason for being economically inactive.

Labour market statistics enquiries: labour.market@ons.gov.uk

1. Not in full-time education includes people in part-time education and/or some form of training. Estimates of the number of young people who were not in employment, education or training ("NEET") cannot therefore be derived from this table. Estimates of young people who were NEET are published separately at: <https://www.ons.gov.uk/employmentandlabourmarket/peoplenotinwork/unemployment/bulletins/youngpeoplenotineducationemploymentortrainingnec>

2. People in full-time education are employed if they have a part-time job or unemployed if they are looking for part-time employment.

3. Denominator = all persons in the relevant age group for economically active, total in employment and economically inactive; economically active for unemployment.

1. Estimates of total pay include bonuses but exclude arrears of pay.

2. The figure in brackets is the percentage of whole economy employment in that sector or industry for the latest time period.

3. The three month average figures are the changes in the average seasonally adjusted values for the three months ending with the relevant month compared with the same period a year earlier.

1. Estimates of regular pay exclude bonuses and arrears of pay.

2. The figure in brackets is the percentage of whole economy employment in that sector or industry for the latest time period.

3. The three month average figures are the changes in the average seasonally adjusted values for the three months ending with the relevant month compared with the same period a year earlier.

1. Estimates of total pay include bonuses but exclude arrears of pay.

2. The three month average figures are the changes in the average seasonally adjusted values for the three months ending with the relevant month compared with the same period a year earlier.

3. Estimates of real earnings are calculated by deflating the nominal earnings estimates by the Consumer Prices Index including owner occupiers' housing costs (CPIH), our preferred measure of consumer price inflation.

Sources: EUROSTAT, OECD, national statistical offices.  
Labour market statistics enquiries: labour.market@ons.gov.uk

(\*) Note: The UK rates shown in this table are as published by EUROSTAT (the EUs statistical office). See Table 1 for the latest rates for the UK as published by ONS.

Caution should be taken with international comparisons of labour markets during the COVID-19 pandemic, since definitional definitions of economic measures, such as furloughing, will vary between countries.

1. All employment rates shown in this table are for those aged from 15 to 64 except for the rate for the United States published by OECD which are for those aged from 16 to 64.
2. The employment rates for the EU are published by EUROSTAT and are not seasonally adjusted. EUROSTAT do not publish seasonally adjusted (SA) employment rates but SA rates for some EU countries are published by OECD. These OECD employment rates are available on our website at [dataset A10](#).
3. Unemployment rates published by EUROSTAT for most EU countries (but not for the UK), are calculated by extrapolating from the most recent LFS data using monthly registered unemployment data. A standard population basis (15-74) is used by EUROSTAT except for Spain, Italy and the UK (16-74). The unemployment rate for the US is based on those aged 16 and over, but the rates for Canada and Japan are for those aged 15 and over. All unemployment rates shown in this table are seasonally adjusted.
4. The "Total EU" series consist of all 27 EU countries. The Eurozone figures consist of the following EU countries: Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Portugal, Slovak Republic, Slovenia and Spain.
5. The EU unemployment rates are as published on the EUROSTAT database. For Sweden the rates on the database differ from those shown in the EUROSTAT News Release published on 8 December 2020. This is because the figures for Sweden on the database are seasonally adjusted estimates but the figures for Sweden shown in the News Release are the trend component.

# 18 Labour disputes

(published 17 March 2020)

United Kingdom, not seasonally adjusted

		Working days lost <sup>1,2</sup> (thousands)	Working days lost in the Public Sector (thousands) <sup>1,2</sup>	Working days lost in the Private Sector (thousands) <sup>1,2</sup>	Number of stoppages <sup>3</sup>	Number of stoppages in the Public Sector	Number of stoppages in the Private Sector	Workers involved (thousands) <sup>1,3</sup>

Cumulative totals 12 months to:								
Jan 19		275	26	249	82	23	59	44
Jan 20 (p)		242	50	192	99	34	65	43

Relationship between columns 1=2+3; 4=5+6

Data source: ONS Labour Disputes Survey  
Labour disputes enquiries 01633 455400

1. Estimates of working days lost and workers involved are shown to the nearest thousand. Unrounded estimates of less than 500 therefore round to zero.
2. Due to rounding the working days lost for the public and private sectors may not add up to the total working days lost.
3. The latest 12 month cumulative totals for the figures in these columns will not necessarily equal the sum of the 12 months as some disputes continue for over one month. These disputes appear in each month's data, but only once in the total.

Data source: Labour Force Survey

Labour market statistics enquiries: [labour.market@ons.gov.uk](mailto:labour.market@ons.gov.uk)

1. The redundancy level is the number of people who were made redundant in the three months prior to interview. The figure is not seasonally adjusted.

2. The redundancy rate is the ratio of the redundancy level for the given quarter to the seasonally adjusted number of employees in the previous quarter, multiplied by 1,000.

# REGIONAL SUMMARY

N92000002	Northern Ireland <sup>4</sup>	12	1.1	3	0.3	9	1.0	-14	-1.1

The Labour Force Survey is tabulated by region of residence.

Source: Labour Force Survey

1. Economically active = Employment plus Unemployment.

Labour market statistics enquiries: labour.market@ons.gov.uk

2. Denominator = all persons aged 16 to 64.

3. Denominator = total economically active

4. The estimates for Northern Ireland have not had the non-response bias adjustment from the recent reweighting fully applied. Early indications suggest the impact on UK headline rate estimates would be less than 0.1 percentage point. We will continue to investigate this and will keep users advised accordingly.

# REGIONAL SUMMARY

## 23(2) Regional summary of Workforce Jobs

Thousands,  
seasonally adjusted

Area Codes	Area Names	June 2021	Change on March 2021
K02000001	United Kingdom	34,802	293
K03000001	Great Britain	33,926	299
E92000001	England	29,754	254
E12000001	North East	1,203	18
E12000002	North West	3,771	64
E12000003	Yorkshire and The Humber	2,748	11
E12000004	East Midlands	2,372	20
E12000005	West Midlands	2,901	23
E12000006	East	3,126	34
E12000007	London	5,909	75
E12000008	South East	4,839	-5
E12000009	South West	2,886	14
W92000004	Wales	1,475	32
S92000003	Scotland	2,697	13
N92000002	Northern Ireland	869	-6

Workforce jobs are mainly sourced from employer surveys and are tabulated by region of workplace.

HM Forces stationed abroad are included in the UK workforce jobs estimates but not in the regional estimates. The UK workforce jobs estimates therefore do not equal the sum of the regional estimates.

The estimates for Northern Ireland have not had the non-response bias adjustment from the recent reweighting fully applied. Early indications suggest the impact on UK headline rate estimates would be less than 0.1 percentage point. We will continue to investigate this and will keep users advised accordingly.
