1 . Main points

- Total UK public sector employment in September 2017 was 5.492 million, up 19,000 on the previous quarter and up 21,000 on the previous year.
- Central government employment was 3.050 million, up 29,000 on the previous quarter and 101,000 on the previous year, the highest since comparable records began in 1999.
- Local government employment was down 9,000 this quarter at 2.104 million, the lowest since comparable records began in 1999.
- Private sector employment was 26.588 million, down 75,000 on the previous quarter but up 304,000 on the previous year.
- Of all people in work, 17.1% were employed in the public sector, an increase of 0.1 percentage points over the quarter.

2 . Things you need to know about this release

This bulletin presents the latest quarterly estimates of UK public sector employment (PSE). The public sector comprises central government, local government and public corporations as defined for the UK National Accounts.

These statistics are used mainly to monitor changes in the number of people employed in the UK public and private sectors and to inform policy-making across government. They are the official measure of UK public sector employment.

Estimates of PSE are presented by sector classification, industry and region. Civil Service employment is shown by government department and agency. Employment in executive non-departmental public bodies (NDPBs) is aggregated by sponsoring department.

Whilst this bulletin focuses on headcount estimates of PSE, full-time equivalent estimates (based on the number of hours worked divided by the standard full-time hours) are available in the [accompanying PSE datasets](#).

The PSE estimates are point-in-time employment estimates and relate to a specific day in the published month.

The main source of PSE is the Quarterly Public Sector Employment Survey, which aims to obtain complete coverage of local authorities and the Civil Service, and coverage of all public bodies with 20 or more employees. It is difficult to achieve complete coverage for local and central government, for example, in the education sector. Further information can be found in the [Quality and Methodology Information](#) report.

All [time series](#) in this release, except for the regional series, are seasonally adjusted to aid interpretation. Relationships that hold in the unadjusted series do not necessarily hold for the seasonally adjusted series. For example, total PSE equals the sum total of all public sector industry estimates before seasonal adjustment, but this is not necessarily true after seasonal adjustment.

Comparisons of public and private sector employment over time are complicated by a number of major reclassifications, where bodies employing large numbers of people have moved between the public and private sectors. We produce estimates of public and private sector employment excluding the effects of major reclassifications to help you understand underlying trends in employment. We publish these alongside estimates of total public and private sector employment in [Tables 5, 6a and 7a of the PSE datasets](#).

Consistent with the [revisions policy for public sector employment statistics](#), the statistics are subject to revisions. Revisions can be made for a variety of reasons, the most common include:

- to account for late information from respondents
- to account for recent classifications to the public sector
- to update seasonal factors (updated quarterly and reviewed annually)

Tables 1R to 5R in the [public sector employment dataset](#) illustrate the size of the revisions in each category.

The [UK Statistics Authority](#) has designated these statistics as [National Statistics](#), in accordance with the [Statistics and Registration Service Act 2007](#) and signifying compliance with the [Code of Practice for Official Statistics](#).

3 . Public sector employment rises

In September 2017, total UK public sector employment (PSE) increased compared with the previous quarter and the previous year. There were 5.492 million employees in the public sector, up 19,000 (0.3%) on June 2017 and 21,000 (0.4%) on September 2016.

Looking longer-term, PSE has been generally falling for the last seven years, as shown in Figure 1. There are now just short of 1 million fewer employees in the public sector compared with the peak level of 6.459 million in September 2009.

Of all people in work, 17.1% were employed in the public sector. Over time we have seen a steady decrease from its peak level of 22.2% in March 2010.

Figure 1: Total UK public sector employment, March 1999 to September 2017, seasonally adjusted

Figure 1: Total UK public sector employment, March 1999 to September 2017, seasonally adjusted

Source: Office for National Statistics

Notes:

1. Sep 2008: Housing associations in England reclassified to public sector.
2. Dec 2008: Lloyds Banking Group and Royal Bank of Scotland moved to public sector.
3. Jun 2012: English colleges moved to private sector.
4. Dec 2013: Royal Mail plc moved to private sector.
5. Mar 2014: Lloyds Banking Group moved back to the private sector.

4 . A rise in central government employment but falls in local government and public corporations

Central government employment continued to rise in September 2017, as shown in Figure 2. At 3.050 million, it was up 29,000 (1.0%) on the quarter and 101,000 (3.4%) on the year. Further schools converting to academy status and an increase in NHS employment contributed to the rise. The latest level is the highest shown since comparable records began in 1999.

Local government employment has continued to fall for another quarter. In September 2017, it decreased by 9,000 (0.4%) on the quarter and 74,000 (3.4%) on the year to reach 2.104 million. Academy conversions accounted for most of the decrease. September 2017 has seen local government employment at its lowest since comparable records began in 1999.

Employment in public corporations, at 338,000, was down 1,000 (0.3%) on the quarter and 6,000 (1.7%) on the year. This is the sixth consecutive fall and the lowest level since comparable records began in 1999.

The impact of academies

There is an ongoing shift of employment from local government to central government, as a result of local authority maintained schools converting to academy status. Academies are classified to central government, whereas local authority maintained schools are classified to local government. As a result, whenever a local authority maintained school becomes an academy, its employees move from local government to central government.

In September 2017, around 19,000 employees for the quarter and 63,000 for the year transferred over to academies.

Figure 2: UK public sector employment in local and central government, March 1999 to September 2017, seasonally adjusted

Figure 2: UK public sector employment in local and central government, March 1999 to September 2017, seasonally adjusted

Source: Office for National Statistics

Notes:

1. July 2010: Academies Act 2010 passed.
2. June 2012: English colleges moved to the private sector.

5 . NHS employment continues to rise

NHS employment increased by 8,000 (0.5%) on the quarter and 33,000 (2.1%) on the year. At 1.629 million it is the highest level since comparable records began and accounts for 30% of total public sector employment (PSE).

Public administration has seen an increase for the fourth consecutive quarter. In September 2017, it increased by 4,000 (0.4%) on the quarter and 15,000 (1.5%) on the year to reach 1.017 million.

Employment in the police increased for the third consecutive quarter. In September 2017, it increased by 2,000 (0.8%) on the quarter and 5,000 (2.0%) on the year to reach 250,000.

Employment in “other health and social work” has fallen every quarter since December 2011. This is down 2,000 (0.7%) on the quarter and 12,000 (4.3%) on the previous year. At 268,000 it’s the lowest figure since comparable records began in 1999.

Figure 3: Change in UK public sector employment, by industry, September 2016 to September 2017, seasonally adjusted

Source: Office for National Statistics

6 . Private sector employment falls

Private sector employment estimates are derived as the difference between total UK employment estimates sourced from the Labour Force Survey and the public sector employment estimates collected from public sector organisations.

Figure 4 shows private sector employment at 26.588 million, decreasing 75,000 (0.3%) on the quarter but up 304,000 (1.2%) on the year.

Figure 4: UK Private sector employment, March 1999 to September 2017, seasonally adjusted

Figure 4: UK Private sector employment, March 1999 to September 2017, seasonally adjusted

Source: Office for National Statistics

7 . Civil Service employment remains unchanged

At September 2017, employment in the Home Civil Service remains unchanged on the quarter at 423,000 but up 7,000 (1.7%) on the previous year.

Civil Service employment last peaked in June 2005 at 566,000. Since then it has generally been falling steadily, although has shown a slight increase in recent periods as shown in Figure 5.

Figure 5: Employment in the Home Civil Service, UK, March 1999 to September 2017

Machinery of government changes in the period since 1 October 2016 are listed in Table 1.

Table 1: Machinery of government changes, 1 October 2016 to 30 September 2017, UK

Organisation name	Details
Rural Payments Agency	Around 60 employees transferred from the Rural Payments Agency to the Department for Environment, Food and Rural Affairs between June and September 2017.
Her Majesty's Revenue and Customs	Around 1,400 employees transferred from Her Majesty's Revenue and Customs to the Cabinet Office between June and September 2017.
Crown Commercial Service	Around 20 employees transferred from Crown Commercial Service to Cabinet Office between June and September 2017.
Department for Digital, Culture, Media and Sport	The Department for Culture, Media and Sport became the Department for Digital, Culture, Media and Sport on 3 July 2017.
Scottish Fiscal Commission	The Scottish Fiscal Commission was established as a non-ministerial department on 1 April 2017.
Her Majesty's Prison and Probation Service	The National Offender Management Service became Her Majesty's Prison and Probation Service on 3 April 2017. Around 600 employees transferred from Her Majesty's Prison and Probation Service to the Ministry of Justice.
Education and Skills Funding Agency	On 1 April 2017, the Education Funding Agency and the Skills Funding Agency merged to form the Education and Skills Funding Agency.
Her Majesty's Revenue and Customs	Around 60 employees transferred from Her Majesty's Revenue and Customs to the Cabinet Office between April and June 2017.
Rural Payments Agency	Around 200 employees transferred from the Rural Payments Agency to the Department for Environment, Food and Rural Affairs on 1 April 2017.
Foreign and Commonwealth Office	Around 40 employees transferred from the Foreign and Commonwealth Office to FCO Services on 1 April 2017.
Department for Business, Energy and Industrial Strategy	Around 150 employees transferred from the Department for Business, Energy and Industrial Strategy to the Government Legal Department as of 1 April 2017. Around 80 employees transferred from the Department for Business, Energy and Industrial Strategy to the Insolvency Service between April and June 2017.
Legal Aid Agency	Around 100 employees transferred from the Legal Aid Agency to the Ministry of Justice between April and June 2017.
The Royal Parks	As of 16 March 2017, The Royal Parks agency transferred from being an executive agency under Department for Culture, Media and Sport and is no longer part of the Civil Service.
Department for Business, Energy and Industrial Strategy	Around 300 staff transferred from the Department for Business, Energy and Industrial Strategy to the Department for Education between January and March 2017.
Cabinet Office	Around 90 staff transferred from The Office for Civil Society, previously held under Cabinet Office, to the Department for Culture, Media and Sport on 1 January 2017.
FCO Services	Around 90 staff transferred from FCO Services to the Ministry of Defence (excluding trading funds) on 1 January 2017.

Department for Exiting the European Union (DExEU)	The Department for Exiting the European Union (DExEU) was formed in July 2016. DExEU employment was reported separately for the first time in the March 2017 release. The total DExEU headcount was approximately 350 as at 31 March 2017. As all DExEU employees are on loan, some still remain on home department records. To avoid double counting, DExEU has only reported the employees officially transferred as at 31 March 2017.
Animal and Plant Health Agency	Around 90 staff transferred from the Animal and Plant Health Agency to the Department for Environment, Food and Rural Affairs between September and December 2016.
Oil and Gas Authority	On 1 October 2016, the Oil and Gas Authority became a government-owned company and ceased to be part of the Civil Service.

8 . Links to related statistics

The quarterly Civil Service statistics in this release are the official measure of Civil Service employment. More detailed statistics on the Civil Service population, such as regional analyses, diversity and earnings statistics, can be found in the annual [Civil Service statistics](#) release.

Estimates of [public sector employment \(PSE\) in Scotland](#) are published quarterly by the Scottish Government on the same day as the UK PSE release.

Estimates of public and private sector jobs in Northern Ireland are published by the Northern Ireland Statistics and Research Agency (NISRA) in the [Northern Ireland Quarterly Employment Survey](#) release.

The [UK labour market release](#) provides a comprehensive picture of the structure and size of the UK labour market each month, covering employment, unemployment, economic inactivity and other employment statistics.

9 . What's changed in this release?

On 29 September 2016, registered providers of social housing in Scotland, Wales and Northern Ireland (referred to as "housing associations" in this release) were reclassified from the private sector to the public sector. We have implemented this classification decision in this release and therefore the series have been revised from March 1999 onwards for Wales and Northern Ireland and from September 2001 for Scotland. More information can be found in the [Statistical classification of registered providers of social housing in Scotland, Wales and Northern Ireland: September 2016](#) report.

10 . Quality and methodology

The [Public sector employment \(PSE\) Quality and Methodology Information report](#) contains important information on:

- the strengths and limitations of the data and how it compares with related data
- uses and users of the data
- how the output was created
- the quality of the output including the accuracy of the data

Response rates

The primary source of the PSE statistics is the Quarterly Public Sector Employment Survey (QPSES), which comprises three separate data collections: local authorities in England and Wales, public corporations and non-departmental public bodies (NDPBs) in Great Britain and the Home Civil Service. Our targets for response before the results are compiled are 90% for Local Authorities and Public Bodies QPSES and 100% for Civil Service QPSES. Response rates for the latest period are shown in Table 2.

Table 2: Response rates for sources of UK public sector employment, September 2017

	Response (% of questionnaires returned)	Response (% of employment returned)
Local Authorities Survey	93	94
Public Bodies Survey	92	96
Civil Service Survey	100	100
Other Sources (see Table 3)	100	100

Source: Office for National Statistics

So that estimates of total public sector employment can be made, it is necessary for further information to be gathered from external sources, listed in Table 3.

Source: Office for National Statistics

- 1 Rounded estimates have been used in this table to calculate the comparisons between periods.
 - 2 Annual figures relate to June quarter.
 - 3 Police (England & Wales) are based on projections.
 - 4 Estimates for March 2011 include 15,000 temporary staff employed in connection with the 2011 Census.
 - 5 Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).
 - 6 Welsh further education colleges were reclassified to the private sector on 27 January 2015. They are included in the private sector from March 2015 but in the public sector for earlier time periods.
 - 7 Community Rehabilitation Companies moved to the private sector on 1 February 2015. They are included in the private sector from March 2015 but in the public sector for earlier time periods.
 - 8 Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.
Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and subsequent periods.
Royal Bank of Scotland plc is included in the public sector from December 2008 but in the private sector for earlier time periods.
Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.
Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.
 - 9 Housing associations are included in the public sector from September 2008 for England, from September 2001 for Scotland and from March 1999 for Wales and for Northern Ireland. For earlier time periods housing associations are in the private sector for England and Scotland.
English further education colleges and English sixth form college corporations classified to public sector from 1993 to 31 March 2012. They are therefore included in public sector estimates from 1993 to March 2012, but not in subsequent quarters.
 - 10 Home Civil Service (excludes Northern Ireland Civil Service which is included in Central Government).
- † Indicates earliest revision

¹ Rounded estimates have been used in this table to calculate the comparisons between periods.

² Housing associations are included in the public sector from September 2008 for England, from September 2001 for Scotland and from March 1999 for Wales and for Northern Ireland. For earlier time periods housing associations are in the private sector for England and Scotland.

³ HM Forces series exclude locally engaged staff. The series also excludes mobilised reservists prior to 1996 as statistics are not available. Prior to June 2008, March = 1 March, June = 1 June, September = 1 September, December = 1 December. From June 2008 onwards March = 1 April, June = 1 July, September = 1 October, December = 1 January.

⁴ Police (England and Wales) are based on projections and subject to revision.

⁵ Estimates for March 2011 include temporary staff with a FTE of approximately 8,000 employed in connection with the 2011 Census.

⁶ English further education colleges and English sixth form college corporations classified to public sector from 1993 to 31 March 2012. They are therefore included in public sector estimates from 1993 to March 2012, but not in subsequent quarters.

⁷ Welsh further education colleges were reclassified to the private sector on 27 January 2015. They are included in the private sector from March 2015 but in the public sector for earlier time periods.

⁸ Data for the NHS are subject to revisions.

⁹ Community Rehabilitation Companies moved to the private sector on 1 February 2015. They are included in the private sector from March 2015 but in the public sector for earlier time periods.

¹⁰ Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.

Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and subsequent periods.

Royal Bank of Scotland plc is included in the public sector from December 2008 but in the private sector for earlier time periods.

Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).

Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.

Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.

Source: Office for National Statistics

- 1 Rounded estimates have been used in this table to calculate the comparisons between periods.
 - 2 Annual figures relate to June quarter.
 - 3 Police (England & Wales) are based on projections.
 - 4 Estimates for March 2011 include 8,000 temporary staff employed in connection with the 2011 Census.
 - 5 Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).
 - 6 Welsh further education colleges were reclassified to the private sector on 27 January 2015. They are included in the private sector from March 2015 but in the public sector for earlier time periods.
 - 7 Community Rehabilitation Companies moved to the private sector on 1 February 2015. They are included in the private sector from March 2015 but in the public sector for earlier time periods.
 - 8 Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.
Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and subsequent periods.
Royal Bank of Scotland plc is included in the public sector from December 2008 but in the private sector for earlier time periods.
Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.
Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.
Housing associations are included in the public sector from September 2008 for England, from September 2001 for Scotland and from March 1999 for Wales and for Northern Ireland. For earlier time periods housing associations are in the private sector for England and Scotland.
 - 9 English further education colleges and English sixth form college corporations classified to public sector from 1993 to 31 March 2012. They are therefore included in public sector estimates from 1993 to March 2012, but not in subsequent quarters.
 - 10 Home Civil Service (excludes Northern Ireland Civil Service which is included in Central Government).

Source: Office for National Statistics

¹ Rounded estimates have been used in this table to calculate the comparisons between periods.

² Housing associations are included in the public sector from September 2008 for England, from September 2001 for Scotland and from March 1999 for Wales and for Northern Ireland. For earlier time periods housing associations are in the private sector for England and Scotland.

³ HM Forces series exclude locally engaged staff. The series also excludes mobilised reservists prior to 1996 as statistics are not available. Prior to June 2008, March = 1 March, June = 1 June, September = 1 September, December = 1 December. From June 2008 onwards March = 1 April, June = 1 July, September = 1 October, December = 1 January.

⁴ Police (England and Wales) are based on projections and subject to revision.

⁵ Estimates for March 2011 include temporary staff with a FTE of approximately 8,000 employed in connection with the 2011 Census.

⁶ English further education colleges and English sixth form college corporations classified to public sector from 1993 to 31 March 2012. They are therefore included in public sector estimates from 1993 to March 2012, but not in subsequent quarters.

⁷ Welsh further education colleges were reclassified to the private sector on 27 January 2015. They are included in the private sector from March 2015 but in the public sector for earlier time periods.

⁸ Data for the NHS are subject to revisions.

⁹ Community Rehabilitation Companies moved to the private sector on 1 February 2015. They are included in the private sector from March 2015 but in the public sector for earlier time periods.

¹⁰ Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.

Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and subsequent periods.

Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).

Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.

Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.

† Indicates earliest revision

Sources: Labour Force Survey and estimates from public sector organisations;
Office for National Statistics

1 Rounded estimates have been used in this table to calculate the comparisons between periods.

2 Annual figures relate to June quarter.

3 Estimates for December 2007 onwards are based partly on projections.

4 Represents G7AU/G7GO*100.

5 Estimated as the difference between LFS total employment and the data from public sector organisations.

6 Represents G7K5/G7GO*100.

7 Labour Force Survey - All in Employment aged 16 and over. Data refers to May-July for annual data from 1992 - 2004, for March to February - April, June to May - July, September to August - October and December to November - January. Quarterly and annual changes may differ slightly from those published elsewhere due to rounding conventions.

8 In recent years the public and private sector employment series have been affected by a number of major reclassifications where bodies employing large numbers of people have moved between the public and private sectors. These major reclassifications are as follows:
English further education colleges and English sixth form college corporations classified to public sector from 1993 to 31 March 2012. They are therefore included in public sector estimates from 1993 to March 2012, but not in subsequent quarters.

Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.

Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and subsequent periods.

Royal Bank of Scotland plc is included in the public sector from December 2008 but in the private sector for earlier time periods.

Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).

Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.

Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.

Welsh further education colleges are included in the private sector from March 2015 but in the public sector for earlier time periods.

Housing associations are included in the public sector from September 2008 for England, from September 2001 for Scotland and from March 1999 for Wales and for Northern

Ireland. For earlier time periods housing associations are in the private sector for England and Scotland.

9 The series shown in this table for public and private sector employment excluding the effects of major reclassifications show all of the above mentioned bodies included in the private sector for all time periods.

Source: Office for National Statistics

- Annual figures relate to June quarter.
- Estimates are based on where people are employed.
- Quarterly changes in employment may be due to seasonal effects.
- In recent years the public and private sector employment series have been affected by a number of major reclassifications where bodies employing large numbers of people have moved between the public and private sectors. These major reclassifications are as follows:
 Further Education corporations and Sixth Form College corporations in England are included in the private sector from June 2012 but in the public sector for earlier time periods.
 Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.
 Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and subsequent periods.
 Royal Bank of Scotland plc is included in the public sector from December 2008 but in the private sector for earlier time periods.
 Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).
 Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.
 Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.
 English further education colleges and English sixth form college corporations classified to the public sector from 1993 to 31 March 2012. They are therefore included in public sector estimates from 1993 to March 2012, and to the private sector thereafter.
 Welsh further education colleges are included in the private sector from March 2015 but in the public sector for earlier time periods.
 Housing associations are included in the public sector for England, from September 2008 for Scotland and from March 1999 for Wales and for Northern Ireland. For earlier time periods housing associations are in the private sector for England and Scotland.
- Figures use Labour Force Survey (LFS) - All in employment aged 16 and over by region of workplace as a denominator. March refers to February-April, June to May-July, September to August-October and December to November-January.
- Includes public sector employees who could not be assigned to a region.
- UK rates based on total employment that includes overseas employees, those who did not state their region of workplace when surveyed under the Labour Force Survey and public sector employees that could not be assigned to a region.
- The estimate for Great Britain is the sum total of England, Wales and Scotland.
- Estimates of public sector employment for Scotland are supplied by Scottish Government and match those produced by Scottish Government for September (Q3) 2017. For further details see <http://www.gov.scot/Topics/Statistics/Browse/Labour-Market/PublicSectorEmployment>
- Estimates of public sector employment for Northern Ireland will differ to those published by the Northern Ireland Statistics and Research Agency which exclude HM Forces personnel. Further details can be found at <http://www.delni.gov.uk/stats-pubs-18>
- The use of workplace based LFS estimates of total employment may overestimate the proportion of public sector employment for Northern Ireland.

1 For analysis purposes, employment of bodies subject to major reclassifications over the series have been excluded from the estimates in this table to provide a trend on a consistent basis

2 In recent years the public and private sector employment series have been affected by a number of major reclassifications where bodies employing large numbers of people have moved between the public and private sectors. These major reclassifications are as follows:
 Further Education corporations and Sixth Form College corporations in England are included in the private sector from June 2012 but in the public sector for earlier time periods.
 Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.
 Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and subsequent periods.
 Royal Bank of Scotland plc is included in the public sector from December 2008 but in the private sector for earlier time periods.
 Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).
 Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.
 Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.
 English further education colleges and English sixth form college corporations classified to the public sector from 1993 to 31 March 2012. They are therefore included in public sector estimates from 1993 to March 2012, and to the private sector thereafter.
 Welsh further education colleges are included in the private sector from March 2015 but in the public sector for earlier time periods.
 Housing associations are included in the public sector from September 2008 for England, from September 2001 for Scotland and from March 1999 for Wales and for Northern Ireland. For earlier time periods housing associations are in the private sector for England and Scotland.

3 Annual figures relate to June quarter.

4 Estimates are based on where people are employed.

5 Quarterly changes in employment may be due to seasonal effects.

6 Figures use Labour Force Survey (LFS) - All in employment aged 16 and over by region of workplace as a denominator. March refers to February-April, June to May-July, September to August-October and December to November-January.

7 Includes public sector employees who could not be assigned to a region.

8 UK rates based on total employment that includes overseas employees, those who did not state their region of workplace when surveyed under the Labour Force Survey and public sector employees that could not be assigned to a region.

9 The estimate for Great Britain is the sum total of England, Wales and Scotland.

10 Estimates of public sector employment for Scotland are supplied by Scottish Government and match those produced by Scottish Government for September (Q3) 2017.

11 For further details see <http://www.gov.scot/Topics/Statistics/Browse/Labour/Market/PublicSectorEmployment>

12 Estimates of public sector employment for Northern Ireland will differ to those published by the Northern Ireland Statistics and Research Agency which exclude HM Forces personnel. Further details can be found at <http://http://www.delni.gov.uk/stats-pubs-18>

12 The use of workplace based LFS estimates of total employment may overestimate the proportion of public sector employment for Northern Ireland.

Source: Office for National Statistics

- Annual figures relate to June quarter.
- Estimates are based on where people are employed.
- Quarterly changes in employment may be due to seasonal effects.
- Estimated as the difference between Labour Force Survey (LFS) - All in employment aged 16 and over by region of workplace and data from public sector organisations. LFS data refer March to February-April, June to May-July, September to August-October and December to November-January.
- In recent years the public and private sector employment series have been affected by a number of major reclassifications where bodies employing large numbers of people have moved between the public and private sectors. These major reclassifications are as follows:
Further Education corporations and Sixth Form College corporations in England are included in the private sector from June 2012 but in the public sector for earlier time periods.
Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.
Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and subsequent periods.
Royal Bank of Scotland plc is included in the public sector from December 2008 but in the private sector for earlier time periods.
Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).
Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.
Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.
English further education colleges and English sixth form college corporations classified to the public sector from 1993 to 31 March 2012. They are therefore included in public sector estimates from 1993 to March 2012, and to the private sector thereafter.
Welsh further education colleges are included in the private sector from March 2015 but in the public sector for earlier time periods.
Housing associations are included in the public sector from September 2008 for England, from September 2001 for Scotland and from March 1999 for Wales and for Northern Ireland. For earlier time periods housing associations are in the private sector for England and Scotland.
- Figures use Labour Force Survey (LFS) - All in employment aged 16 and over by region of workplace as a denominator. March refers to February-April, June to May-July, September to August-October and December to November-January.
- UK estimates include overseas employees and those who did not state their region of workplace when surveyed as part of the Labour Force Survey.
- The estimate for Great Britain is the sum total of England, Wales and Scotland.
- Estimates of private sector employment for Scotland are supplied by Scottish Government and match those produced by Scottish Government for September (Q3) 2017.
For further details see <http://www.gov.scot/Topics/Statistics/Browse/Labour-Market/PublicSectorEmployment>
- Estimates of public sector employment used to derive private sector employment estimates for Northern Ireland will differ to those published by the Northern Ireland Statistics and Research Agency which exclude HM Forces personnel.
- The use of workplace based LFS estimates of total employment may underestimate derived private sector employment for Northern Ireland.

1 For analysis purposes, employment of bodies subject to major reclassifications over the series have been included in the estimates in this table to provide a trend on a consistent basis.
2 In recent years the public and private sector employment series have been affected by a number of major reclassifications where bodies employing large numbers of people have moved between the public and private sectors. These major reclassifications are as follows:
Further Education corporations and Sixth Form College corporations in England are included in the private sector from June 2012 but in the public sector for earlier time periods.
Royal Mail plc is included in the private sector from December 2013 but in the public sector for earlier time periods.
Lloyds Banking Group plc is included in the public sector from December 2008 to December 2013 but in the private sector for earlier and subsequent periods.
Royal Bank of Scotland plc is included in the public sector from December 2008 but in the private sector for earlier time periods.
Network Rail is included in the private sector before December 2002. From December 2002 onwards it is included in the public sector (except for the period from June 2003 to March 2004, when it is included in the private sector).
Northern Rock is included in the public sector from December 2007 until December 2011 but in the private sector for earlier and later time periods.
Bradford and Bingley is included in the public sector from September 2008 but in the private sector for earlier time periods.
English further education colleges and English sixth form college corporations classified to the public sector from 1993 to 31 March 2012. They are therefore included in public sector estimates from 1993 to March 2012, and to the private sector thereafter.
Welsh further education colleges are included in the private sector from March 2015 but in the public sector for earlier time periods.
Housing associations are included in the public sector from September 2008 for England, from September 2001 for Scotland and from March 1999 for Wales and for Northern Ireland. For earlier time periods housing associations are in the private sector for England and Scotland.
3 Annual figures relate to June quarter.
4 Estimates are based on where people are employed.
5 Quarterly changes in employment may be due to seasonal effects.
6 Estimated as the difference between Labour Force Survey total employment (all in employment aged 16 and over) and data from public sector organisations. LFS data refer March to February-April, June to May-July, September to August-October and December to November-January.
7 Figures use Labour Force Survey (LFS) - All in employment aged 16 and over by region of workplace as a denominator. March refers to February-April, June to May-July, September to August-October and December to November-January.
8 UK estimates include overseas employees and those who did not state their region of workplace when surveyed as part of the Labour Force Survey.
9 The estimate for Great Britain is the sum total of England, Wales and Scotland.
10 Estimates of private sector employment for Scotland are supplied by Scottish Government and match those produced by Scottish Government for September (Q3) 2017.
For further details see <http://www.gov.scot/Topics/Statistics/BrowseLabour-Market/PublicSectorEmployment>
11 Estimates of public sector employment used to derive private sector employment estimates for Northern Ireland will differ to those published by the Northern Ireland Statistics and Research Agency which exclude HM Forces personnel.
12 The use of workplace based LFS estimates of total employment may underestimate derived private sector employment for Northern Ireland.

- Numbers are rounded to the nearest ten, and numbers less than five are represented by "..".
- Around 1,400 employees transferred from Her Majesty's Revenue and Customs to Cabinet Office between June and September 2017.
- Around 20 employees transferred from Crown Commercial Service to Cabinet Office between June and September 2017.
- The Department for Culture, Media and Sport became the Department for Digital, Culture, Media and Sport on 3 July 2017.
- Around 60 employees transferred from Rural Payments Agency to Department for Environment Food and Rural Affairs between June and September 2017.
- The total DExEU headcount was approximately 530 as at 30 September 2017. As all DExEU employees are on loan, some still remain on home department records. To avoid double counting, DExEU has only reported the employees officially transferred as at 30 September 2017.
