To be completed for: THE BUSINESS NAMED ABOVE

Please complete and return by 18 March 2013

Dear Sir or Madam,

Please find the questionnaire for the Index numbers of Import Prices (IPI): Provision of price information attached. Once complete, the questionnaire can be returned by post or fax using the details in the box below.

The numbers of businesses and questions are kept to the minimum required to produce reliable results. Import Price Indices are economic indicators that measure the price movements of capital items imported into the UK from overseas suppliers. Separate data is required for EU and non-EU imports. These indices are required for use in the calculation of the Balance of Payments and National Accounts.

You are required by law to complete this questionnaire. If you do not complete and return this questionnaire by 18 March 2013, penalties may be incurred (under section 4 of the Statistics of Trade Act 1947). All the information you provide is kept strictly confidential. It is illegal for us to reveal your data or identify your business to unauthorised persons.

Thank you for your co-operation,
Office for National Statistics

IMPORTANT - Please read these notes before you complete this questionnaire

Products selected must be imported into the United Kingdom (intra-group transactions should only be provided when no other price information is available). Price quotations for the selected items will then be used to enhance the range and quality of import price indices which are used in the calculation of the National Accounts and Balance of Payments.

Product selection

Products selected should, where possible, be items that are imported regularly into the UK and be representative of your company's activity within the scope of the index. Please select ONE product in each of the indexes shown.

If your products are considered to be one-off specials (bespoke), we would like you to provide a basic specification which relates to that type of product. The description should enable you to provide ongoing market estimates.

1. Product description and reference

Please include enough detail to ensure that the product is recognisable within your company. Please include:

- Product name (this should not be a range of different products)
- Serial/model number, if applicable
- Pack size or weight if applicable
- Description of product, if necessary

2. Will you be further manufacturing this product?

Please provide prices for products you import and which you will further manufacture. If you do not further manufacture any of the products please indicate this on the notes page.

3. Supplier reference

Please use a supplier reference number or ledger number to maintain confidentiality. Using the price from a particular supplier ensures that the price movement is not distorted if terms of sale vary from one supplier to another.

4. Terms of sale

Include here the most frequently used payment/credit terms. If other conditions such as type of supplier, guarantee or insurance can affect the price, these also need to be specified. If these transactions occur via the internet/ E-Commerce please include details of this. (Electronic commerce is any transaction completed over a computer-mediated network that involves the transfer of ownership or rights to use goods or services.)

5. Carriage terms

Please quote CIF (Cost, Insurance and Freight) wherever possible. However please be explicit about other carriage terms if applicable.

6. Frequency of import

If the product is not imported on a regular basis, you can still provide us with a price quote. However, please give details of the frequency with which it is imported in the comments box on the back page.

7. Units of sale

The quantity to which the price relates, eg. per tonne, per box, per case, each, etc.

8. Currency

Please indicate the currency in which the transaction occurs.

9-10 Current price

Please provide the current month import transaction price (i.e. after discounts) at the time of order with VAT excluded. Please quote in the currency used for the transaction.

11. Country of origin

Please state the item's country of origin (or last shipment point).
