The language used in the next few questions is very explicit and direct and it may seem very intrusive to you. We need to ask about this level of detail to help classify the exact type of sexual assault that people may have experienced. This helps the Home Office to better understand and deal with crimes of this nature. Remember if the questions upset you in any way you can either ask the interviewer for help or simply pass over them by pressing ‘Don’t wish to answer’.

We will ask first some questions about actual sexual assaults and then about attempted assaults.
