[Subject : SCJS and Police Record Crime comparison papers](#)

Dear [REDACTED]

Thank you for the documents you sent covering the comparison of crime statistics based on police recording and from the SCJS. The team has reviewed these, and I'm responding on their behalf to take into account my rather extensive experience as a survey methodologist; it's nice to recycle a small part of that!

I attach a Word document that covers a summary of our review of the material grouped by the following areas: purpose, overall structure and tone, and content. I trust that this gives a steer to aid your further development work on this analysis.

All the best
