[REDACTED] / Susan,

The main statistical contact for smart metering moving forward will be [REDACTED] (I'm around until the end of August).

[REDACTED] and [REDACTED] are our primary Policy contacts.

Best wishes,

[REDACTED]

Hi [REDACTED],

The presentation went ok thank you. The questions were mostly technical - what method performed best for identifying inactive homes, have we considered sampling the data, what other pilot projects have we got - so nothing immediate on the policy side.

[REDACTED] We'll be publishing a couple of other papers on long-term unoccupancy and clustering (both of which we're working on now), but then will cease work on smart-type meter data. We'll keep you / [REDACTED] informed.

Kind regards,

[REDACTED]

Hi [REDACTED],

I think you had gone before I had chance to find you in the afternoon – somehow I missed the announcement that you were presenting but assume it went okay – any questions that would have been of interest to the policy area?

[REDACTED]  
[REDACTED]

Best wishes,

[REDACTED],

I'm sorry that I didn't get a chance to speak to you at yesterday's GSS Methodology Symposium as I was hoping to.

Please find attached our lines to take.

Kind regards,

[REDACTED]

Hi [REDACTED],

Many thanks for letting us know. A copy of your lines to take for reference would be useful.

I've cc'd our Policy and Comms colleagues (who have contributed to reviews) for information.

Best wishes,

[REDACTED]

Hi [REDACTED],

We're in a position to publish both the University of Southampton report and our own report into smart meters, both of which you've seen. We hope to publish these next week. We're not publicising the publication of these reports at all, but just wanted to you be aware in case the press pick anything up. Is there anything you need from me in the meantime? I think we sent you our lines to take a while

ago.
