

## Commissioned Tables Charging Rates

Annual Survey of Hours and Earnings bespoke analysis price list 2018 to 2019.

In addition to the tables prepared for the standard outputs from the Annual Survey of Hours and Earnings (ASHE), bespoke ad hoc analyses may be commissioned independently.

Bespoke analyses will be issued to the requesting customer under an Open Government Licence (OGL) by the provision of a link to a URL on the ONS website and are then available free to all other users.

Once a specification has been agreed, your request will be added to the customer waiting list with a target delivery date of 4-6 weeks, but at busy times it may take longer depending on the complexity of your request and our publication schedule. If your request can be completed in under an hour of staff time then it will not be subject to a charge.

## Charging Rates

The cost of the commissioned output reflects the amount of time taken to develop the analyses and undertake all necessary processes in respect of quality and disclosure control. The charges reflect the full economic costs associated with the delivery of the service.

If the customer requires delivery via portable media (CD/DVD) an additional charge of £50 will be made to cover the costs of administration, production and dissemination via secure delivery.

Price bands have been identified to give customers a guide to the cost of their analyses. However, the customer services team will agree the final cost with the customer prior to any work commencing.

The price bands (excluding VAT) are set out below:

Number of runs	Complexity		
	Basic	Intermediate	Complex
1 - 2	£100	£285	Price on application
3 - 5	£160	£410	Price on application
6 - 10	£285	£530	Price on application
11 - 15	£410	£655	Price on application
16 - 20	£530	£780	Price on application
21 +	Price on application	Price on application	Price on application

All charges are subject to VAT at the standard rate.
