

Census Commissioned Tables Charging Rates

In addition to the tables prepared for the standard outputs from the 2011 Census, tables may be independently commissioned when customer requirements are not met by data available in the published tables.

Commissioned tables will be issued to the requesting customer under an Open Government Licence (OGL) by the provision of a link to a URL on the ONS website and are then available free to all other users.

Charging Rates

The cost of the commissioned output reflects the amount of time taken to develop the table(s) together with statistical disclosure check (pre and post production) and associated processes. The charges reflect the Full Economic Costs associated with the delivery of the service.

If the customer requires delivery via portable media (CD/DVD) an additional charge of £50 will be made to cover the costs of administration, production and dissemination via secure delivery.

Four price bands have been identified to give customers a guide of how much their commissioned table will cost. However the final cost will be agreed with the customer prior to any work commencing.

The price bands are set out below.

Band	Time to produce Table	Price (Excluding VAT)
A	Under half a Day	£150
B	Over half a day and less than one and a half days	£350
C	Over a day and a half and less than two and a half days	£600
D	Over two and a half days	POA

All charges are subject to VAT at the standard rate.

Additional advice and guidance may be obtained from Census.customerservices@ons.gsi.gov.uk

Charges effective from 1st January 2016
