

## Consumer Prices Publication Scheme and Charging Rates

Consumer Prices can provide an Adhoc Service.

Bespoke analyses will be issued to the requesting customer under an Open Government Licence (OGL) by the provision of a link to a URL on the ONS website and are then available free to all other users.

### Charging Rates

The cost of the commissioned output reflects the amount of time taken to develop the data analyses and undertake all necessary processes in respect of quality and disclosure control. The charges reflect the Full Economic Costs associated with the delivery of the service.

Price bands have been identified to give customers an indication of the cost of data analyses. However the final cost will be agreed with the customer prior to any work commencing.

We will deliver the commissioned tables within 7 working days of receiving written acceptance of the quote, except in exceptional circumstances. In many cases, where requests are not complex, tables are delivered within 3 working days.

The price bands are set out below.

<b>Band</b>	<b>Time to Produce</b>	<b>Charge (Excluding VAT)</b>
	Table(s);	
Band A	which take < 1 hour to produce	Free
Band B	which take up to half a day to produce	£100
Band C	which take longer than half a day to produce	Price on application

All charges are subject to VAT at the standard rate.
