

ICT and R&D Surveys Publication Scheme and Charging Rates

The ICT Surveys publications are:

[Internet Access - Households and Individuals](#)

[Internet Users](#)

[E-commerce and ICT Activity](#)

The Research and Development (R&D) Surveys publications are:

[UK Gross Domestic Expenditure on Research and Development \(GERD\)](#)

[Businesses Enterprise Research and Development \(BERD\)](#)

[UK Government Expenditure on Science, Engineering and Technology \(SET\)](#)

In addition to the tables included in the ICT and R&D Surveys publications, bespoke special analyses may be commissioned independently. There is a charge for producing these analyses.

Bespoke analyses will be issued to the requesting customer under an Open Government Licence (OGL) by the provision of a link to a URL on the ONS website and are then available free to all other users.

Charging Rates

The cost of the commissioned output reflects the amount of time taken to develop the analyses and undertake all necessary processes in respect of quality and disclosure control. The charges reflect the Full Economic Costs associated with the delivery of the service.

Price bands have been identified to give customers an indication of the cost of analyses. However the final cost will be agreed with the customer prior to any work commencing.

We will deliver the commissioned tables within 30 working days of receiving written acceptance of the quote, except in exceptional circumstances. In many cases, where requests are not complex, tables are delivered within 10 working days.

The price bands are set out below:

Band	Time to Produce	Charge + VAT
Band A	Less than one Hour	Free
Band B	Up to half a day	£120
Band C	Between half a day and one day	£240
Band D	Between one day and two days	£480
Band E	Longer than two days	Price on application

All charges are subject to VAT at the standard rate.
