

Labour Market Division Publication Scheme and Charging Rates

Labour Market Division can provide an Adhoc Service supplying additional data tables that support the Labour Force Survey (LFS) based estimates published as part of the monthly Labour Market Statistical bulletin.

Bespoke analyses will be issued to the requesting customer under an Open Government Licence (OGL) by the provision of a link to a URL on the ONS website and are then available free to all other users.

Charging Rates

The cost of the commissioned output reflects the amount of time taken to develop the analyses and undertake all necessary processes in respect of quality and disclosure control. The charges reflect the Full Economic Costs associated with the delivery of the service.

Price bands have been identified to give customers an indication of the cost of analyses. However the final cost will be agreed with the customer prior to any work commencing.

We will deliver the commissioned tables within 10 working days of receiving written acceptance of the quote, except in exceptional circumstances. In many cases, where requests are not complex, tables are delivered within 5 working days.

Please note that larger requests of analyses, or LFS tables not relating to the monthly Labour Market Statistical bulletin, will be produced by the Data Advice and Relations Team (DART). Prices and delivery times may differ.

The price bands are set out below:

Band	Time to Produce	Charge (Excluding VAT)
	Table(s);	
Band A	which take up to 6 hours to produce	£200.00
Band B	which take up to 7 hours to produce	£270.00
Band C	which take up to 8 hours to produce	£350.00
Band D	which take over 8 hours to produce	Price on application

All charges are subject to VAT at the standard rate.

Additional advice and guidance may be obtained from labour.market.assessment@ons.gov.uk

Charges effective from 1st January 2016
