

RESPONDENT: 2940311742 – June Ryan
SECTOR: Unknown - Individual

Q1 - What are your views of the different census approaches described in the consultation document?

We MUST keep our 'status quo' and keep completing a census once a decade, PLEASE, PLEASE! These documents are so important, we cannot lose this historic survey.

Q2 - Please specify any significant uses of population and housing statistics that we have not already identified.

Q3 - Please specify any significant additional benefits of population and housing statistics that we have not already identified.

Q4 - What would the impact be if the most detailed statistics for very small geographic areas and small population groups were no longer available? High, medium, low or no impact?

High

If medium or high, please give further information.

Q5 - What would the additional benefit be if more frequent (i.e. annual) statistics about population characteristics were available for areas like local authorities and electoral wards? High, medium, low or no additional benefit?

Medium

If medium or high please give further information.

Q6 - Please specify any significant uses of census information for historical research that we have not already identified.

How can you identify ancestors from statistics. I agree that the world will be a very different place in another 100 years, but we have a right to know who & where we came from.

Q7 - What advantages or disadvantages for genealogical or historical research can you see from a move to a solution based on archiving administrative data sources?

No advantage for genealogical or historical research. What can you do with just numbers and no facts?

Q8 - What are your views of the risks of each census approach and how they might be managed?

I feel that everyone, without exception should be made - by law - to complete the census forms, if you have nothing to hide then you have nothing to fear.

Q9 - Are there any other issues that you believe we should be taking into account?

We are not numbers, we are human beings with a past, present and future.
