Topic: Output and enumeration bases

Was there enough flexibility in the output bases available from the 2011 Census?

Please select only one item

☐ Yes ☐ No

If no, which output bases were missing?

Please describe the impact on you/your work of not having information on those output bases.

Topic: Basic demographics and household composition

1a Do you currently use 2011 Census information about Basic Demographics and Household Composition?

Please select only one item

☐ Yes ☒ No (Go to question 2)

1b If yes, what do you currently use information about Basic Demographics and Household Composition for? Select all that apply.

Please select all that apply

- ☐ Resource allocation – Central government ☐ Resource allocation – Local government
☐ Service planning and delivery ☐ Policy development and monitoring ☐ Research requirement
☐ Other purposes (please specify in the box below)

1c How do you currently use information about Basic Demographics and Household Composition? For example:

- If you indicated that you use information for resource allocation please describe how and the value of resource being allocated.
- Please describe the specific uses of the data. For example what information sources you use, what specific use you make of census information.
- What additional information do you need on this topic? How would it be used?
- What has been the impact on policy development/monitoring of using census data?
- Please describe the types of research you use the information to support and why the information is important for that.

2a To what extent do you agree with ONS’s initial view on whether the following Basic Demographics and Household Composition sub-topics are collected in the 2021 Census?

	Agree	Neither agree nor disagree	Disagree
Age <i>Please select only one item</i>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sex <i>Please select only one item</i>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Marital or legal partnership status <i>Please select only one item</i>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Household and family relationships <i>Please select only one item</i>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

2b Please indicate the impact on you/your work if ONS did not collect information about Basic Demographics and Household Composition in the 2021 Census.

	High	Medium	Low	Do not use
Age <i>Please select only one item</i>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sex <i>Please select only one item</i>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Marital or legal partnership status <i>Please select only one item</i>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Household and family relationships <i>Please select only one item</i>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

2c If you indicated high or medium impact please describe the impact on you/your work if ONS did not collect information about the sub-topic in the 2021 Census. It's really important that you tell us about the impact as this will form an important part of our evaluation. For example:

- What would be the best alternative source of information?
- What would be the impact of using this alternative source?
- What mandatory activities would you no longer be able to carry out?
- What other activities would you no longer be able to carry out?
- What additional costs would you or others incur?

Please select each sub-topic that applies before adding your comments.

Please select all that apply

☐ Age ☒ Sex ☐ Marital or legal partnership status ☐ Household and family relationships

If you are commenting on more than one Basic Demographics and Household Composition sub-topic, please use a paragraph per sub-topic, beginning each paragraph with the sub-topic name, in the field below.

Sex: the way this question is worded is not very inclusive to transgender people - especially those who are nonbinary. Please collect "gender" and include more than 2 options. An equality and human rights commission survey did this and found around 0.4% of the population are nonbinary. I am part of a nonbinary campaign/support group and being able to access this information on a national level would enable us to make a case for funding grants and resources that the community needs.

3a At what geographical level do you currently use information about Basic Demographics and Household Composition? Select all that apply.

Please select all that apply

☐ Output area ☐ Super output area ☐ Ward ☐ Local authority ☐ Regional
☒ National ☐ Other

3b If you need information about Basic Demographics and Household Composition for small geographies please describe how you use it. For example:

- Are you using it to identify specific areas to target for intervention?
- Does it provide input to resource allocation?

4 If you need information about Basic Demographics and Household Composition for small population groups please describe how you use it and the impact on you/your organisation if it were not available.

5a How important is UK comparability for information about Basic Demographics and Household Composition?

Please select only one item

- ☐ Very important ☐ Important ☐ Quite important ☐ Not important

5b Please describe how your use of information about Basic Demographics and Household Composition requires UK comparability. For example:

- Do you need to make comparisons across the UK for resource allocation purposes?
- Do you need to make comparisons between areas of different sizes, for example comparing data for a local authority with the UK average?
- Are you involved in developing UK wide policy?
- Is your organisational remit UK wide and requires you to provide information to support this?

6a Which England and Wales censuses have you compared the 2011 Census Basic Demographics and Household Composition data with?

Please select all that apply

- ☐ 2001 ☐ 1991 ☐ 1981 ☐ Earlier censuses ☐ None

6b Please describe how you have used comparisons from previous censuses for Basic Demographics and Household Composition. For example:

- Evaluating change over time in order to make decisions about funding.
- Evaluating change over time in order to make decisions about policy.
- Evaluating benchmarks used for monitoring the success of area based intervention.
- Producing projections.
- Service planning and delivery.

7a To what extent do you need to use information about Basic Demographics and Household Composition with information about other census topics?

Please select only one item

- ☐ Frequently with a wide range of other topics
☐ Frequently with a limited range of other topics
☐ Occasionally with a wide range of other topics
☐ Occasionally with a limited range of other topics ☐ Not at all

7b Please describe how you use information about Basic Demographics and Household Composition with information about other census topics.

7c Please list the other topics that you need to use information about Basic Demographics and Household Composition with.

Would like to be able to cross-reference gender (including nonbinary gender) with health, carers, income, household & family relationships & socio-economic status, to build up a picture of what support services the nonbinary community needs.

8a Do alternative (non-census) sources of information about Basic Demographics and Household Composition meet your current requirements?

Please select only one item

☐ Yes fully ☐ Yes partially ☒ No ☐ Don't know

8b Please tell us about the alternative sources of information about Basic Demographics and Household Composition that you use. For example:

- Do you use these sources in combination with the census? How?
- What would be the next best alternative source of information?
- What would be the impact of using this alternative source?

Our current best statistics for nonbinary genders are the 2011/12 Equality and Human Rights Commission survey of 10,000 people (<http://www.equalityhumanrights.com/publication/technical-note-measuring-gender-identity>). This is a relatively small number on a national scale, so we need this information in the census to provide more accurate information.

Topic: Housing
