

Overview of surveys in the UK using the four Office for National Statistics personal well-being questions as of February 2015:

Information for each survey has been collected by researching the Internet and where required contacting the organisation responsible for the survey.

Surveys using the four ONS personal well-being questions:			
Survey	Brief description of the survey and its objectives	When were questions included	Publication dates
Crime Survey for England and Wales ONS - previously conducted by Home Office	<p>The Crime Survey for England and Wales measures the extent of crime in England and Wales by asking people whether they have experienced any crime in the past year.</p> <p>The survey has measured crime in this way since 1982 and is a valuable source of information for the government about the extent and nature of crime in England and Wales. The Crime Survey for England and Wales is the new name for the British Crime Survey.</p> <p>A separate survey (the Scottish Crime and Justice survey) measures the extent of crime in Scotland but does not include questions on personal well-being.</p>	<p>The 4 ONS personal well-being questions are included on the 2013-14 questionnaire.</p>	<p>Annual publication every July and quarterly updates every January, April and October.</p> <p>Latest annual: Period ending March 2014 was published on 17th July 2014.</p> <p>Latest quarterly: Year ending September 2014 released 22nd January 2015</p> <p>As of 23 January 2015 both 2012/13 and 2013/14 are available on the Data Archive.</p>
Civil Service People Survey UK Civil Service	<p>The 2012 People Survey is the fourth annual Civil Service-wide survey of staff attitudes and experiences of work.</p> <p>Objectives are:</p> <ul style="list-style-type: none"> •to establish employee engagement levels as a key people management metric across government, and for organisations to assess its link to performance levels •for organisations to understand their own drivers of employee engagement and use this knowledge to improve their people, business and change strategies •for line managers to understand engagement levels among their staff and manage people according to priority employee engagement drivers •to embed the employee engagement concept in Civil Service management thinking 	<p>The 4 ONS personal well-being questions are included on the 2012, 2013 and 2014 survey's and will be included on an annual basis in the future.</p> <p>Over 297,000 people working in the Civil Service took part.</p>	<p>2012 published 1st February 2013.</p> <p>2013 published February 2014.</p> <p>2014 published November 2014</p>
Wealth and Assets Survey ONS	<p>The Wealth and Assets Survey (WAS) is a longitudinal survey running across Great Britain; England, Wales and Scotland (excluding North of the Caledonian Canal</p>	<p>The 4 ONS personal well-being questions were included from July 2011 (2nd Year Wave 3).</p>	<p>Publication of 2010-2012 results was July 2014.</p>

	<p>and the Isles of Scilly). WAS aims to address gaps identified in data about the economic well-being of households by gathering information on level of assets, savings and debt; saving for retirement; how wealth is distributed among households or individuals; and factors that affect financial planning.</p>	<p>The 4 ONS well-being questions will also be asked in Wave 4.</p>	
<p>Life Opportunities Survey DWP/ONS</p>	<p>The Life Opportunities Survey (LOS) is a major study, sponsored by the Department for Work and Pensions, which has been running since June 2009. It provides facts and figures comparing how disabled and non-disabled people participate in society in a number of areas. These areas include: work; education; social participation, transport and use of public services. The survey aims to identify the reasons why people do not take part in these areas as much as they would like to. It also explores topics such as living standards, housing, discrimination and crime.</p> <p>The Office for National Statistics (ONS) runs the survey throughout the year across Great Britain. It interviews a random sample of households, with sectors of society chosen to reflect the general population.</p>	<p>The 4 ONS personal well-being questions were added to LOS from Wave 3 onwards. Wave 3 started in October 2012 and will continue until September 2014.</p>	<p>Publication of wave 3 is due in 2015.</p>
<p>The National Study of Work-search and Well-being findings DWP/ NatCen</p>	<p>This is the first national study dedicated to examining the psychological health and wellbeing of Jobseekers Allowance (JSA) claimants. It was commissioned by the Health, Work and Well-being Directorate at the Department for Work and Pensions (DWP).</p> <p>The study was designed to inform policy on supporting unemployed people with different levels of psychological health to access services, seek jobs and return to work.</p> <p>The primary aims of this study are to:</p> <ul style="list-style-type: none"> • contribute to an evidence-base on customers receiving JSA (including those in the fit for work category following a Work Capability Assessment (WCA)) but who have mild to moderate CMD and need some focused support; • complement research into support for people in receipt of IB/ESA; • provide insights that could inform programmes of support: including the type and scale of any support services needed, the timing of their offer, and efficient ways of targeting this support at the right customer groups; and • provide information to help DWP staff be aware of potential triggers for mental distress. 	<p>Two different approaches to assessing personal wellbeing were included on the Wave 1 interview: The 4 ONS questions on personal well-being and the Short Warwick Edinburgh Mental Wellbeing Scale (SWEMWBS).</p> <p>Wave 1 fieldwork was conducted between March and May 2011 with respondents followed up for a second interview about 4 months later. An assessment of common mental disorders was carried out at both waves using a structured interview tool. In addition, in-depth qualitative interviews were conducted with a small number of participants who had symptoms of stress, anxiety or depression during wave 1 survey interviews. Qualitative fieldwork was conducted in June and July 2011.</p>	<p>Wave 1 published September 2012.</p>
<p>Survey regarding population of employees DWP</p>	<p>As of December 2013 DWP confirmed a CAPI (Computerised Assisted Telephone Interview) survey regarding population of employees.</p>	<p>The 4 ONS personal well-being questions will be included in the survey which will be carried out in Spring 2014</p>	<p>Report expected in end 2014/beginning of 2015.</p>

<p>Armed Forces Continuous Attitude Survey (AFCAS) MOD</p>	<p>The annual Armed Forces Continuous Attitude Survey (AFCAS) was first conducted in 2007. AFCAS is one of the main ways the department gathers information on the views and experiences of our Armed Forces personnel. The information from this survey helps shape policies for training, support, and the terms and conditions of service. The aim of the AFCAS is to assess and monitor the attitudes of service personnel across the Royal Navy (RN), Royal Marines (RM), Army and RAF on a variety of topics including pay, morale and organisational engagement. The data are used to identify where measures are needed to influence motivation and retention in the Armed Forces and to inform policy development and assessment. The continuous nature of the survey allows for attitudes to be tracked over time.</p>	<p>The 4 ONS personal well-being questions were included in the 2012 and 2013 questionnaires.</p>	<p>The 2012 results were published on 23rd August 2012</p> <p>The 2013 results were published on 25th July 2013.</p> <p>The 2014 results were published on 21st May 2014</p>
<p>Families Continuous Attitude Survey (FamCAS). MOD</p>	<p>This survey is sent to the spouse/civil partners of a random sample of serving personnel on an annual basis. It contains a number of questions on satisfaction with Army provided housing.</p> <p>FamCAS is not yet an official statistic but will almost certainly be in 2013.</p>	<p>The 4 ONS personal well-being questions were included in the 2012 questionnaire.</p>	<p>Publication 23rd August 2012.</p> <p>Tri-service families continuous attitude survey 2013: main report, published February 2014</p>
<p>Impact of FE learning Survey BIS</p>	<p>Telephone survey of 4,000 learner's representative of the wider population of learners to quantify both the economic and non-economic benefits associated with skills and qualification attainment. The survey also explored the role and effectiveness of information, advice and guidance; learners' reasons for undertaking the course and their choice of provider; learners' expectations in relation to their potential outcomes; attitudes towards loans in Further Education; willingness to pay for Further Education; and what might have happened in the absence of publicly funded training.</p>	<p>The ONS life satisfaction and worthwhile well-being questions were included in the 2012 questionnaire.</p> <p>(The happy yesterday and anxious yesterday questions were not included).</p> <p>Learners in England who studied a course in FE during 2010/11 academic year. The interviews took place in January 2012.</p> <p>There is no plan to repeat the survey in the near future.</p>	<p>Published on January 28th 2013.</p> <p>Survey was a one off and therefore there is no plan to repeat the survey in the near future.</p>
<p>The National Survey for Wales Welsh Government</p>	<p>The National Survey for Wales involves 25 minute face-to-face interviews with a randomly selected representative sample of people aged 16 and over across Wales and it runs all year round. This is a survey for people to give their opinion on a wide range of issues affecting them and their local area. The Welsh Government is committed to making sure its decisions and actions take into account the views of people in Wales and the National Survey for Wales is one of its key sources of information on people's views and circumstances. It collects opinion data on a wide range of issues affecting people in local areas in Wales</p>	<p>The 4 ONS personal well-being questions are included on the National Survey from 2012.</p> <p>The survey also includes 8 questions on satisfaction with various 'domains of life' (developed by ONS).</p>	<p>Statistical bulletin on well-being results based on first quarter of fieldwork (January to March 2012 and 3500 interviews) - released on 30th January 2013.</p> <p>Headline results for April 2013 – March 2014 released 4th December 2014</p>

	<p>The results will be used by the Welsh Government to help make Wales a better place to live.</p> <p>They will help it to:</p> <ul style="list-style-type: none"> • make decisions that are based on sound evidence; • monitor changes over time; • identify areas of good practice that can be implemented more widely; and • identify areas or groups that would benefit from intensive local support, so action can be targeted as effectively as possible. 		
Community Life Survey	<p>The Community Life Survey has been commissioned by the Cabinet Office to track the latest trends and developments across areas key to encourage social action and empower communities. TNS BMRB, an independent research organisation, will be delivering the survey on behalf of the Cabinet Office in 2012-13. Topics covered by the survey include:</p> <ul style="list-style-type: none"> • volunteering • charitable giving • local action and networks • well-being <p>The government is tracking trends in issues key to understanding community life in order to have the information needed to inform policy and to understand and communicate progress on these matters. The Community Life Survey is focused specifically on social action, community engagement and well-being, and will build on key aspects of previous and relevant surveys to ensure that trends in such issues can be tracked over time.</p> <p>The Community Life Survey delivers a nationally representative sample of adults (aged 16 years and over) in England.</p> <p>For the 2012/2013 period the sample size was approximately 6,600.</p> <p>For the 2013/2014 period the sample size was 5,105.</p>	<p>The 4 ONS personal well-being questions have been included since August 2012 onwards.</p>	<p>The statistical bulletin which covers data collected August – October 2012 was published in February 2013.</p> <p>The statistical bulletin which covers August 2012 – April 2013 published July 2013.</p> <p>The statistical bulletin covering May 2013 to April 2014 was published 22nd July 2014.</p>
Labour Force Survey (LFS) Annual Population Survey (APS) ONS	<p>The Labour Force Survey (LFS) is a survey of households living at private addresses in the UK.</p> <p>Its purpose is to provide information on the UK labour market which can then be used to develop, manage, evaluate and report on labour market policies.</p> <p>The Labour Force Survey (LFS) is a survey of the employment circumstances of the UK population.</p> <p>It is the largest household survey in the UK and provides the official measures of employment and unemployment.</p> <p>The Annual Population Survey (APS) was</p>	<p>The 4 ONS personal well-being questions have been asked each quarter from April 2011.</p>	<p>The first annual ONS experimental subjective well-being results published 24th July 2012.</p> <p>The second year's results were published on the 30th July 2013 called Personal well-being in the UK, 2012/13.</p> <p>The third years</p>

	<p>first created in 2004 and combines results from the Labour Force Survey (LFS) and the English, Welsh and Scottish LFS boosts. The survey provides enhanced data on key social and socio-economic variables.</p> <p>Datasets are produced quarterly, with each dataset containing 12 months of data. The data are available for Government Office Region (GOR) or through a special licence by local authority level.</p> <p>The survey asks 155,000 households and 360,000 people per dataset about their own circumstances and experiences regarding a range of subjects including housing, employment and education.</p>		<p>results were published on the 24th September 2014 called: Personal well-being in the UK, 2013/14</p> <p>Families and Households 2014 released 28th January 2015</p>
<p>Opinions and Lifestyle Survey (OPN)</p> <p>ONS</p>	<p>Opinions and Lifestyle survey (OPN) is a multipurpose social survey which provides quick and reliable information about topics of immediate interest.</p> <p>The survey has a monthly cycle and specialises in asking pertinent research questions on topics too brief to warrant full surveys of their own.</p> <p>Government organisations, academic institutions and charities can commission questions on the Opinions and Lifestyle survey and use the survey in a variety of different ways.</p> <p>This is mostly to provide answers to questions of immediate policy interest but also to help assess public awareness of new policies, initiatives and publicity campaigns; to develop, test and pilot new survey questions; or to obtain samples of respondents for follow-up research projects.</p> <p>The OPN has been used for split trial testing of the ONS questions. This means a number or variants of the questions have been included since April 2011.</p>	<p>The 4 ONS personal well-being questions have been included since April 2011 onwards and used for experimental 'testing' of the questions.</p> <p>Therefore a number of variations on the personal well-being questions have been tested. The headline 4 have not been asked regularly.</p>	
<p>Living Costs and Food Survey (LCF)</p> <p>ONS</p>	<p>The Living Costs and Food Survey (LCF) collect information on spending patterns and the cost of living that reflects household budgets across the country.</p> <p>The primary use of the survey is to provide information about spending patterns for the Consumer Price Indices, and about food consumption and nutrition.</p> <p>It is an important source of economic and social data for government and other research agencies.</p> <p>The survey is conducted throughout the year across the whole of the UK and is the most significant consumer survey undertaken in the UK.</p> <p>The results are essential for understanding society and planning to meet its needs.</p>	<p>The 4 ONS personal well-being questions have been included since April 2011.</p>	<p>Income, expenditure and personal well-being, 2011/12. Published 4th June 2014.</p> <p>Family spending 2014 released 2nd December 2014</p>
<p>Taking Part Survey -</p> <p>DCMS</p>	<p>The survey's main objectives are to:</p> <ul style="list-style-type: none"> • provide a central, reliable evidence source that can be used to analyse cultural and sporting engagement, providing a clear picture of why people do or do not engage 	<p>The 4 ONS personal well-being questions for 'life satisfaction' 'worthwhile' and anxious are included on the 2013/2014 survey.</p> <p>However, a different</p>	<p>Taking part 2013/14 quarter 1 release published 26th September 2013</p> <p>Taking part 2013/14 quarter 2 release</p>

	<ul style="list-style-type: none"> • meet the needs and interests of everyone who uses Taking Part data, including relevant public bodies and the public • underpin further research on driving engagement and the value and benefits of engagement <p>The survey provides annual data for children and both annual and quarterly data for adults. It also contributes to the evidence base across a wide range of topics, including:</p> <ul style="list-style-type: none"> • participation in culture and sport • satisfaction with and enjoyment of culture and sport. • social capital • volunteering • barriers to participation 	<p>happiness question is used as follows 'Taking all things together how happy would you say you are?' On a scale of 1 - 10, 10 = Extremely happy and 1 = Extremely unhappy.</p> <p>Reporting on the happiness question is only included in the annual publication, not the four quarterly ones.</p>	<p>published 12th December 2013</p> <p>Taking part 2013/14 quarter 3 release published 27th March 2014</p> <p>Taking part 2013/14 quarter 4 release published July 2014</p> <p>Taking part 2014/15 quarter 1 release published 2nd October 2014</p>
National Citizenship Service evaluation Cabinet Office	<p>National Citizen Service (NCS) is one of the Government's flagship initiatives for building a bigger, stronger society. National Citizen Service (NCS) aims to build a more cohesive, responsible and engaged society by bringing 16 year olds from different backgrounds together in a residential and home-based programme of activity.</p>	<p>A personal well-being module including the 4 ONS personal well-being questions is to be included in 2013.</p>	<p>Evaluation of National Citizen Service Pilots Interim Report - May 2012.</p> <p>Findings from the evaluations of the 2012 summer and autumn NCS programme published July 2013.</p>
English Longitudinal Study of Ageing	<p>ELSA is an interdisciplinary data resource on health, economic position and quality of life as people age. The primary objective of the English Longitudinal Study of Ageing (ELSA) is to collect longitudinal multidisciplinary data from a representative sample of the English population aged 50 and older. Both objective and subjective data is collected relating to health and disability, biological markers of disease, economic circumstance, social participation, networks and well-being.</p>	<p>The 4 ONS personal well-being questions will be included in future waves of ELSA, it's likely they will be included from Wave 7 in 2013.</p>	<p>Wave 5 published October 2012.</p> <p>Wave 6 published October 2014.</p>
English Housing Survey (EHS) DCLG commission from NATCEN.	<p>The English Housing Survey (EHS) is a continuous national survey commissioned by the Department for Communities and Local Government (DCLG) that collects information about people's housing circumstances and the condition and energy efficiency of housing in England.</p>	<p>The 4 ONS personal well-being questions will be included on the English Housing Survey (EHS) in 2013/2014. The questions will only be answered by the head of households (home-owner, higher earner etc). The results will only be representative of that particular subset of the population.</p>	<p>Data from the survey will be available in 2015, with the intention of a headline report published in February and then a full report in the summer.</p>
Quarterly National Household Survey Central	<p>The Quarterly National Household Survey (QNHS) is a large-scale, nationwide survey of households in Ireland. It is designed to produce quarterly labour force estimates that include the official measure of employment and unemployment in the state (ILO basis). The survey began in</p>	<p>The 4 ONS personal well-being questions will be included in 2013.</p>	<p>Latest release quarter 2 2014 released 26th August 2014</p>

Statistics Office Ireland	September 1997, replacing the annual April Labour Force Survey (LFS). The QNHS also conducts special modules on different social topics each quarter. The QNHS includes interviews 39,000 households each quarter.		
Monitor of Engagement with the Natural Environment: The Natural Survey on People and the Natural Environment (MEME) Natural England	To explore correlations between a person's propensity to visit the natural environment and their subjective wellbeing scores. A total of 3,528 interviews were conducted over the four waves.	The 4 ONS personal well-being questions were included in four survey waves (May, August and November 2012 and February 2013)	Latest release June to August 2014 published 13 th August 2014

Surveys not using the four ONS personal well-being question but using different variations of the questions:			
Survey	Brief description of the survey and its objectives	When were questions included	Publication dates
EU SILC module	<p>EU SILC is the main source for the compilation of statistics on income, social inclusion and living conditions in Europe. The EU-Statistics on Income and Living Conditions (EU-SILC) instrument. It collects comparable multidimensional micro-data on:</p> <ul style="list-style-type: none"> •income •poverty •social exclusion •housing •labour (see also labour market) •education (see also education and training) •health (see also health) 	A personal well-being module is to be carried out regularly from April 2013 although they are not fully harmonised with the ONS questions.	November 2014.
Family Resource Survey DWP	<p>The Family Resources Survey (FRS) is a continuous survey with an annual target sample size of 24,000 private households (25,000 prior to April 1997). Fieldwork is carried out jointly by the Office for National Statistics and the National Centre for Social Research.</p> <p>The survey was launched in October 1992 to meet the information requirements of Department for Work and Pensions (DWP) analysts. The survey aims to: support the monitoring of the social security programme; support the costing and modelling of changes to national insurance contributions and social security benefits; provide better information for the forecasting of benefit expenditure. Households interviewed in the survey are asked a wide range of questions about their circumstances including receipt of</p>	<p>Currently the 4 ONS personal well-being questions are not used for 2013/14. Included is a module on well-being, consisting of around 20 questions, to fulfil EU-SILC obligations. Some of these are similar to the ONS suite of questions.</p> <p>However, for 2014/15 the 4 ONS personal well-being will be included.</p>	<p>2012/2013 data published July 2014</p> <p>Next release date May/June 2015</p>

	<p>Social Security benefits, housing costs, assets and savings. Although some of the information collected is available elsewhere, the FRS provides new or much more detailed information in a number of areas and brings some topics together on one survey for the first time.</p>		
<p>The UK Household Longitudinal Study</p> <p>Understanding Society</p>	<p>Understanding Society is a unique and valuable academic study that captures important information every year about the social and economic circumstances and attitudes of people living in 40,000 UK households. The study is longitudinal following the same household over time.</p> <p>It also collects additional health information from around 20,000 of the people who take part.</p>	<p>The 4 ONS personal well-being questions are not used, though they do have a 'life satisfaction' question (with a 7 point response scale).</p> <p>They also include a GHQ12 question which is labelled as 'subjective well-being' but is actually a measure of mental illness (anxiety and depression).</p>	<p>Insights 2014 published October 2014</p>
<p>Health Survey for England</p>	<p>The Health Survey for England (HSE) comprises a series of annual surveys beginning in 1991. This survey is now commissioned and published by The NHS Information Centre. It is designed to provide regular information on various aspects of the nation's health. All surveys have covered the adult population aged 16 and over living in private households in England. Children were included in every year since 1995.</p>	<p>The 4 ONS personal well-being questions are not used.</p> <p>However, since 2010 HSE have included the Warwick-Edinburgh mental well-being scale (WEMWBS).</p>	<p>Health survey for England 2013 published 10th December 2014</p>
<p>Public attitudes and behaviours towards the environment</p>	<p>The survey follows from previous environmental surveys run by Defra and its predecessors in 1986, 1989, 1993, 1996-7, 2001 and 2007.</p> <p>The 2009 survey was commissioned jointly by Defra and the Energy Saving Trust and consisted of 2,009 face to face interviews in people's homes during the spring.</p> <p>Additional questions were included in an omnibus survey consisting of 1,772 face to face interviews. Both the main survey and omnibus survey were administered under contract by TNS Global Market Research.</p>	<p>The 4 ONS personal well-being question are not used.</p> <p>However, a 'life satisfaction' question was included in March 2011.</p> <p>The survey is unlikely to run again.</p>	
<p>Health Behaviour in School-aged Children Study (HBSC)</p>	<p>The HBSC research network is an international alliance of researchers that collaborate on the cross-national survey of school students: Health Behaviour in School-aged Children (HBSC). The HBSC collects data every four years on 11-, 13- and 15-year-old boys' and girls' health and well-being, social environments and health behaviours. These years mark a period of increased autonomy that can influence how their health and health-related behaviours develop.</p> <p>The end goal of the HBSC study is to improve the health and well-being of young people. To achieve this goal, research findings are disseminated to a wide range of users, including, but not limited to: academia, policy-makers, practitioners, the voluntary/non-governmental sectors, the public, and the media. HBSC findings are used to: influence or gauge the effectiveness of policy; develop</p>	<p>The 4 ONS personal well-being questions are not currently included.</p> <p>However, The 'Life satisfaction' question is asked in the form of Cantril ladder and has been included since 2001/02.</p> <p>Worthwhile - not included.</p> <p>Happy/anxious - not included, but similar terms e.g. feeling sad, not happy, have been included since 2005/06.</p>	

	programmes and practices; raise public awareness; and promote scientific development.		
Survey of Smoking, Drinking and Drug Use NatCen NHS	<p>The survey is carried out by NatCen in partnership with the National Foundation for Educational Research. It is commissioned by the NHS Information Centre for Health and Social Care, with additional funding from the Home Office and the Department for Education. Findings from the survey are used by the Department of Health, the Home Office and the Department for Education to track behavioural trends, to inform policy and to monitor the impact of legislation and other initiatives.</p> <p>Each survey is based on a sample of around 500 schools, selected using probability methods. All schools in the country with pupils in the target age range are eligible, including state-maintained and independent schools.</p> <p>In each school, a sample of pupils is selected randomly from all classes in Years 7 to 11. All eligible pupils have an equal chance of being selected.</p> <p>This is carried out annually. Each year this major survey collects data from over 6000 school pupils aged between 11 and 15. It covers:</p> <p>How many 11 to 15 year olds smoke, drink alcohol or take drugs.</p> <p>The patterns of smoking, drinking and drug use by 11 to 15 year olds.</p> <p>Attitudes and beliefs.</p> <p>The factors that predispose young people to smoke drink or take drugs.</p> <p>As well as the core data collected every year, the survey alternates in focus to provide additional information on either drug use or smoking and drinking.</p>	<p>The 4 ONS personal well-being questions are not currently included.</p> <p>The survey currently uses the Children's Society well-being questions.</p>	<p>2012 data publication date was 25th July 2013</p> <p>2013 data publication date was 24th July 2014</p>
Community Learning Learner Survey BIS	<p>The Community Learning Learner Survey respondents were adult learners in England who had completed a Community Learning course between July 2011 and February 2012. In total 4,015 interviews were conducted.</p>	<p>Well-being questions were asked using different wording than the 4 ONS personal well-being questions. Happy and Anxious were overall rather than yesterday. Additionally, it is planned to use the well being questions again in a future survey of Community Learning starting in 2014.</p>	<p>The wave 1 results were published on the 11th March 2013.</p> <p>The wave 2 results were published on the 28th March 2014 and updated on 6th June 2014.</p>
British Social Attitudes Survey	<p>Every year the British Social Attitudes survey asks over 3,000 people what it's like to live in Britain and how they think Britain is run. The survey tracks people's changing social, political and moral attitudes and informs the development of public policy.</p> <p>It has been conducted annually since 1983 and is NatCen's longest running survey. New questions are added each year to reflect current issues, but all questions are designed with a view to repeating them periodically to chart</p>	<p>The 4 ONS personal well-being questions are not used though they may be used from 2013.</p> <p>Currently they are including the life satisfaction question and their own variant of the happiness question (but with a 5 point answer scale) on BSA 2013. The BSA may consider using the whole</p>	

	changes over time. So far over 85,000 people have taken part.	set of well-being question in the future but only when they have been finalised.
